The period of completion shall be 12 (**Twelve**) calender months **Including monsoon** from the date of order to proceed with the work. **Contractor should submit Bar Chart accordingly.**

3.5 EARNEST MONEY :

3.5.1 The amount of Earnest Money **Rs. 2,98,500/- (Rs. Two Lacs Ninety Eight Thousand Five Hundreds Only)** The amount for tender form fee & earnest money is to be submitted as per E tendering Procedure and online receipt for the same should be uploaded with the tender document along with technical bid. (Earnest money deposit Exemption certificate issued by state government organization shall not be accepted).

EMD & Cost of Blank Tender shall be payable through one of the following modes ONLY:

1. Net-Banking

2. Debit Card

3. Credit Card

4. RTGS / NEFT.*

.* For paying the Document Fees / EMD through the option (4) **RTGS / NEFT**, please follow the below process:

1. Please mention the following details while making the **RTGS/NEFT** payment from your Bank:
 - (a) Beneficiary account number - <TMCE+Bidder Code> For example, in case your Bidder Code is ABC123, kindly mention TMCEABC123 as the beneficiary account number.
(Bidder code shall be available through the E-Tendering portal)
2. Beneficiary bank branch - ICICI Bank, CMS, Empire Complex, Lower Parel, Mumbai-400013
3. Beneficiary IFSC code - **ICIC0000104**
4. One day after making the payment, tenderer shall log in to TMC (www.thanecity.gov.in / www.tmc.abcprocure.com) portal. While making payment for Document Fee / EMD, please select the RTGS/NEFT payment option at the document fee/ EMD payment screen. Upon doing so, tenderer shall be able to view the funds remitted by them through NEFT/RTGS as available balance.
5. Please proceed to make the payment. Upon doing so, the required amount to be paid through the Document fee/EMD, shall get appropriately deducted from the available balance and payment shall be confirmed real time.
6. A receipt number would also get generated after successful payment.

7. Kindly note that the payment is required to be made one day before you would like to make the document fee/EMD payment through our portal.

Please get in touch with e-procurement support team in case any clarification is required.

(Note for Contractors/Tenderers :

It will be solely upon the bidder's choice to select any of these payment options best suited to him. It is understood that the bidder is aware of the payment cycle and other technical requirements/ payment process under each of these modes. It is bidder's responsibility to see that the amount of EMD & cost of Blank Tender Form (BTC) are credited (in case of payment by NEFT/RTGS, the payment referred herein above may not mean final submission of EMD/BTC etc to TMC. The EMD/BTC etc shall be paid/ credited to TMC only when the bidder completes the Tender Document and other formalities online and submits the Tender), in the e-Tender System well before the scheduled time and date, to be able to proceed with final submission of his Tender along with the EMD & BTC to TMC. TMC will not be responsible for any failure on part of the bidder in submission of the Tender and/or the EMD/BTC etc. before scheduled time and date, for any reason whatsoever, including, inter-alia, noncredit of said amounts of EMD/ cost of Blank Tender Form, and therefore no claims shall be entertained on these grounds.

Under this online payment system for e-Tendering the Tenders will not be submitted/ received by TMC unless the EMD & Cost of Blank Tender are received/ credited before scheduled time and date. Hence, bidder shall remit the said amount well in advance. It is clarified that the Tenders – both Technical and Financial – will not be considered for opening if EMD and BTC are not received/ credited before schedule time and date, for any reason whatsoever.

ALERT:-For the RTGS/NEFT payment option, considering that the payments are settled by RBI in batches, it is advisable that the bidder completes the leg of transfer of funds, from his bank account to his own User Account in the e-Tendering system, one day before his desired day of submitting his Tender to TMC.)

(Earnest money deposit Exemption certificate issued by state government organization shall not be accepted).

- 3.5.2** Earnest Money in the form of Cheque or any other Mode than prescribed above will not be accepted. Tenders of those contractors who do not deposit Earnest Money in

one of the above accepted form shall be summarily rejected. Tender not accompanied by an Earnest Money Deposit are liable to be rejected as non responsive. If during the tender validity period, the tenderer withdraws his tender, the Earnest money deposit shall be forfeited and the tenderer may be disqualified from tendering for further works in the Thane Municipal Corporation, Thane for the period of one year.

In case of any discrepancy, the bid document may be referred and the final decision will be of City Engineer of TMC, Thane which cannot be challenged legally.

3.5.3 The Earnest Money Deposit will be returned to the unsuccessful tenderers immediately after issue of work order to successful tenderer. Tenderer to note that EMD of all tenderers will be refunded on written request made by the tenderer. On receiving written request, engineer incharge shall forward it to finance department within three working days. The earnest money deposit of the successful tenderer shall be returned after he finishes initial security deposit and duly enters into contract.

3.5.4 Within ten days from the date of receipt by him of the letter of having acceptance of his tender, the successful tenderer shall furnish the required initial Security Deposit and attend the office of the City Engineer, Thane Municipal Corporation, Dr. Almeda Road, Panchpakhadi, Thane for execution of the contract document. If the successful tenderer fails to furnish Initial Security Deposit or to execute the contract his earnest money deposit shall be forfeited and the tenderer may be disqualified from tendering for further works in the Thane Municipal Corporation, Thane

4 LANGUAGE OF TENDER :

The tenders shall be submitted in the prescribed forms in “English” language only. Language for communication will be English/ Marathi.

5 TENDER VALIDITY PERIOD :

Validity of the offer will be **180 days** from the last date of submission tender documents and thereafter unless extended if required to do so, to this consent will be taken from tenderers who wish to do so.

6 OPENING OF TENDERS :

Tenders will be opened from the web site online at e-tendering cell, TMC in the presence of tenderers or their representatives of Contractor who choose to remain

present On **04.02.2016** if possible. The tenderer or their representatives, who are present shall sign the register in token of their attendance.

7 WHOM TO CONTACT :

The City Engineer, Thane Municipal Corporation, Thane may be contacted for any further information on the tender.

8 THE TENDER ACCEPTING AUTHORITY :

The acceptance of tender vests with the Municipal Commissioner of Thane Municipal Corporation, Thane who reserves the right to reject any or all tender without assigning any reason thereof. The award of the contract shall be at the discretion of the tender Accepting Authority, TMC also reserved right in case, if felt necessary to make parts of works atleast (two), In case tenderer having objection to division he may load his tender and indicate this in price cover.

Chapter – III

General Conditions of Contract and Additional Conditions of Contract

GENERAL CONDITIONS AND ADDITIONAL, CONDITIONS

1. WORK AND SITE CONDITIONS :

2. General Description of Work :- Resurfacing of road trenches in Lokmanya-Sawarkar ward Committee area.

The Project Comprises of :

Items as in contract Schedule-B and specifications and conditions.

2. CONTRACTOR TO INFORM HIMSELF FULLY :

2.1 The Contractor shall be deemed to have carefully examined the work and site conditions land including labour, the general and the special conditions, the specifications, schedules, drawings and shall be deemed to have visited the site of work and to have fully informed himself regarding the local conditions and carried out his own investigations to arrive at rates quoted in the tender. In this regard he will be given necessary information to the best of knowledge of the department but without any guarantee and liability about it.

If he shall have any doubt as to the meaning of any portions of these general conditions or the special conditions or the scope of work or the specifications and drawing or any other matter concerning the contract he shall, in good time, before submitting his tender, set forth the particulars thereof and submit them to the City Engineer, Thane Municipal Corporation, Thane in writing in order that Such doubts may be clarified authoritatively before tendering.

Once a tender is Submitted, the matter will be decided according to tender conditions, in the absence of any such authentic pre-clarification.

2.2 Errors, Omissions and Discrepancies :

- (a) In case of errors and/or disagreement between written and scaled dimensions on the drawing or between drawing and standard specifications etc'. the following order of preference shall supply.
 - (i) Between actual scaled and written dimension or description on a drawing the latter shall be adopted.
 - (ii) Between the written or shown description of dimension in the drawing and corresponding one in the specifications, the latter shall apply.

- (iii) Between the quantities shown in Schedule of quantities and those arrived at from the drawings, the latter shall be adopted, subject of course, to actual measurement at site.
- (iv) Between the written description of the item in the schedule of quantities and the detailed description in specifications of the same items, the latter shall be adopted
- (b) In case of discrepancy between percentage rate quoted in figures and words, the lowest of the two will be considered for acceptance of the tender.
- (c) In all cases of omissions and/or doubts for any items or specification, a reference shall be made to the City Engineer, Thane Municipal Corporation, Thane whose elucidation, elaboration or decision shall be considered as authentic. The Contractor shall be held responsible for any errors that may occur in the work through lack of such reference and through lack of such precaution.

2.3 Working Methods :

The work disturbing present traffic, the contractor has to provide necessary diversion, barricading etc. at his own cost till the completion of work without any claim on the department. Contractor shall submit, within the time stipulated by the City Engineer in writing the details of actual methods that would be adopted by the contractor for execution of any item as required by Engineer at each of the locations supported by necessary detailed drawings and sketches including those of the Plant and Machinery that would be used, their locations, arrangement for conveying and handling material etc. and obtain prior approval of the Engineer-in-charge well in advance of starting of such item of work. The City Engineer reserves the right to suggest modification or make complete changes in method proposed by the Contractor, whether accepted previously or not, at any stages of work, in order to obtain the desired accuracy, quality and progress of work which shall be binding on the contractor and no claim on account of such changes in method of execution will be entertained by Government so long as specifications of the item remain unaltered.

2.4 Progress Schedule :

- a. **The contractor shall furnish within 7 days on receipt of order to start the work, a progress schedule of work in the bid in quadruplicate** indicating the date of actual start, the monthly progress expected to be achieved and

anticipated completion date of each major item of work to be done by him, also indicating dates of procurement and setting up of materials, plant and machinery. **Failing which penalty Rs. 2000/- per day will be charged.** The schedule should be such as to be practicable of achievement towards the completion of the whole work in the time limit. The progress schedule will be scrutinized and approved with/without modifications by the City Engineer. No revised schedule shall be operative without such acceptance in writing. The City Engineer further empowered to ask for more detailed schedule or schedules say week by week, for any item or items, in case of urgency of work as will be directed by him and the contractor shall supply the same as and when asked for. **The contractor will be responsible for maintaining the progress according to schedule laid down in Clause 2 of 'B-1' Tender Form.** The progress schedule shall be in the form of Bar chart /C.P.M. chart or any other form prescribed by City Engineer.

- b. **The contractor shall furnish sufficient plant and equipment and labour as may be necessary to maintain the progress schedule.** The working and shift hours restricted to two shift a day for operations to be done under the supervision shall be such as may be approved by the Engineer Night work which requires supervision shall not be permitted except when specifically allowed by the City Engineer each time, if requested by the Contractor. The Contractor shall provide necessary lighting arrangements etc . for night work,as directed by the City Engineer at it his own cost. The list of plant & machinery proposed for the work if found inadequate to meet with target in that case , contractor will have to mobilized additional plant, equipment & manpower to achieve target. No extra cost will be paid for such arrangement for the reason because the contractor has himself assessed equipment to be mobilized for the work.
- c. Further the contractor shall submit the progress report of work at intervals of one months or as may be specified by the City Engineer
- d. The contractor shall maintain proforma charts, details regarding machinery, equipment, labour, materials, personnel etc. are actually employed and submit weekly report thereof or as may be specified by the City Engineer.

2.5 Treasure Trove :

In the event of discovery by the contractor or his employees, during the progress of the work of any treasure fossils, mineral or any other article of value or interest, the

contractor shall give immediate intimation thereof to the City Engineer and forthwith handover to the City Engineer such treasure things which shall be the property of the Thane Municipal Corporation.

2.6 Agent and Work Order Book :

The contractor shall himself manage the work or engage authorised all time agent on the work capable of managing and guiding the work and understanding the specifications and contract conditions. A qualified and experienced graduate Engineer shall be provided by the Contractor as his agent for technical matters in case City Engineer considers this as essential for the work and so directs the contractor He will take order as will be given by the City Engineer or his representative and shall be responsible for carrying, them out. This agent shall not be changed without prior intimation to the City Engineer or his authorised representative on the work site. The Contractor shall supply to the Engineer the details of all supervisory and other staff employed by the contractor and notify changes when made and satisfy the engineer regarding, the quantity and sufficiency of the staff, thus employed. **The Engineer will have the unquestionable right to ask for changes in the quality and numbers of contractor's supervisory staff and to order removal from work of any staff member.** The Contractor shall comply with such orders and effect replacement to the satisfaction of City Engineer. **A work order book shall be maintained on site and it shall be property of Thane Municipal Corporation, Thane and the contractor shall promptly sign orders given therein by City Engineer his representative on the work and comply with them.** The compliance shall be reported by the contractor to the City Engineer in good time so that it can be checked. The blank work order book with machine numbered pages will be provided by the Thane Municipal Corporation free of charge for this purpose. The contractor will be allowed to copy out instruction given therein from time to time.

2.7 Initial Measurement for Record :

Where for proper measurement of the work, it is necessary to have an initial set of levels or other measurement taken, the same as recorded in the authorised field book or measurement book of Thane Municipal Corporation by the City Engineer or his authorised representative and will be signed by the contractor who will be entitled to have a true copy of the same made at his cost. Any failure on the part of the Contractor to get Such levels etc. recorded before starting the work, will render him liable to accept the decision of the City Engineer as to the basis of taking measurements, like wise the contractor will not cover any work which will render its subsequent measurements difficult or impossible, without first getting the same

jointly measured by himself and the authorised representative of the City Engineer. The record of such measurements made by the department will be signed by the contractor and he will be entitled to have true copy of the same made at his cost. Whenever there is change in strata during actual execution in respect of item of Schedule 'B' it will be the responsibility of the contractor to intimate this immediately to the Department and get the levels at the change of strata finalised before doing the further work.

2.8 Handing Over the Work :

All the work and materials, before finally taken over by department will be the entire liability of the contractor for guarding, maintaining and making good any damage of any magnitude interim payments made for such work will not alter this position. The handing over by the contractor and taking over by the City Engineer or his authorised representative will be always in writing, copies of which will be going to the City Engineer or his authorised representative and the contractor duly signed by both the parties.

2.9 Assistance in Procuring Priorities, Permits etc. :

The City Engineer on a written request by the contractor, will if in his opinion, the request is reasonable and in the interest of work and its progress, assist the contractor, in securing, the priorities for deliveries, transport permits for controlled materials etc. when such are needed. The Thane Municipal Corporation will not be responsible for the non-availability of such facilities or delay in this behalf and no claim on account of such failures or delay shall be allowed by the Thane Municipal Corporation. The contractor shall have to make his own arrangement for machinery required for the work.

2.10 Samples and Testing of Materials :

- (i) All materials to be used on the work such as cement, lime, bricks, aggregates, steel, stones, asphalt, wood, tiles bitumen etc. shall be got approved in advance from the City Engineer or his authorised representative on work and shall pass the test or analysis
- (ii) **The contractor shall at his risk and cost make all arrangements** and/or shall provide for all such facilities as the City Engineer or his authorised representative on work may require for collecting, preparing and **forwarding required number of samples for tests or for analysis to the TMC** laboratory or the name of the laboratory directed by the **engineer incharge**

and bear all charges and cost of testing. Such samples shall also be deposited with the City Engineer or his authorised representative on work.

- (iii) The contractor shall, if and when required, submit at his cost the samples of the materials to be tested or analysed and if so directed, **shall not make use of or incorporate in the works any material to be represented by the samples until the required test or analysis have been made and the materials finally accepted by the Engineer-in-charge.**
- (iv) The contractor **shall not be eligible for any claim or compensation either arising Out of any delay in the work or due to any corrective measure required to be taken on account of and as a result of testing of the materials.**
- (v) **The contractor or his authorised representative will be allowed to remain present in the laboratory while testing the samples furnished by him.**

2.11 Co-ordination :

When several agencies for different sub-works or the Project are to work **simultaneously on the project site there must be full co-ordination and co-operation between different contractors to ensure timely and smooth completion of the project as a whole.**

The schedule dates for completion specified in each contract shall therefore, be strictly adhered to. Each contractor may make his independent arrangement for water, power, housing etc. if they so desire. On the other hand the contractors are at liberty to make mutual agreement in this behalf and make joint arrangement with the approval of City Engineer.

No single contractor shall take or cause to take any steps or action that may cause, disruption discontent or disturbance of work, labour or arrangements etc. of other contractors in the project location. Any action by any contractor which the City Engineer in his unquestioned discretion may consider as infringement of the above code, would be considered as a breach of the contract conditions and shall be dealt with as such.

In case of any dispute, disagreement between the contractors, the City Engineer's decision regarding the co-ordination, co-operation and facilities to be provided by the contractors shall be final and binding on the contractor concerned and such a decision or decisions shall not vitiate any contract nor absolve the contractor(s) of his/their obligations under the contract nor consider for the grant for any claim or compensation.

2.12 Payments :

The contractor must understand clearly that the rates quoted are for completed work and include all costs due to labour, scaffolding, plant, machinery, supervision, electric charges, water supply charges, royalties, octroi duties, work contract tax and any other tax, and shall also include all expenses to cover the cost of night work if and when required and no claim for additional payment beyond the prices or rates quoted will be entertained.

Contractor will have to submit all relative data like levels, registers etc. , required test reports, respective cross sections along with procedure of bill recording. Failing of which claim of payment will not be entertained.

Contractor should note that after claim of bill in above respective manner payment will be made positively within 30 to 45 days. No delay in start or continuation of further work shall be accepted due to lack of fund or delay in payment to the contractor.

2.13 Patented Device :

Whenever the contractor desires to use any designed devices, materials or process covered by the letter of patent or copy right, the right for such use shall be secured by suitable legal arrangement and agreement with patent owner and the copy of their agreement shall be filed with the City Engineer. If so desired by the letter.

2.14 Temporary Quarters :

- (1) The contractor shall make his own arrangement for temporary quarters required for housing to his laboureres and supervisory staff at his own cost with all necessary arrangements including the preventive measure etc. as directed by the City Engineer. **No labour hutments shall be allowed within the work site.**

2.15 Computer Facility :

The contractor shall provide One branded Laptop with internet connection and one Computer with printer of latest configuration at work site within 7 days of issue of work order for the use of TMC representative throughout the construction period. Any maintenance and and payment of necessary charges required during contract period shall be responsibility of contractor at no extra cost.

Minimum Configuration : 14" WXGA EA Series -Intel core i5-520M (2.40 GHz) with turbo Boost upto 2.93 GHz, 320 GB, 3 GB DDR3 SDRAM, Intel Graphics Media Acc HD,

BT, VGA, Windows 7 Professional 64-Bit, 2.7 Kg, Quick web access, HDMI Out, eSATA, 1 yr Intl with Multimedia Key board, Optical mouse, multimedia kit etc. complete.

Printer :Laser Jet

Note :- Specification given under Sr.no 2.15 is only guidelines however best configuration and software should be provided related in work.

2.16 Site Office for the Departmental Staff

On receipt of the work order the contractor will have to erect ready made site chowky and laboratory in form of porta cabin/ container cabin. Before erecting the chowky and laboratory he shall have to obtain permission from the concern Executive Engineer and the Executive Engineer shall approve the site of the chowky and the laboratory proposed by the engineer or may allow another suitable site. The portable cabin/ container cabin shall preferably admeasure 12.2 x 2.5 m with 2 doors and proper ventilation. It should have toilet facility. This chowky should be exclusively for use of municipal staff only and should be installed before commencement of work. The chowky should be equipped with electric supply, fans, telephone arrangement, sufficient tables , chairs, water filter and cupboard with locking arragemen, Computer/Laptop with Internet Connection etc. No separate payment will be made for providing the chowky and ancilliary items mentioned above. The site chowky and laboratory will have to be removed from the site, leaving the site clear of all materials within the period of 7 days from the date of completion of work. In case of failure to do so the chowky will be demolish without any intimation to the contractor at the risk and cost and no request for compensation will be entertained.

3. SAFETY MEASURES AND AMENITIES :

3.1 Safety Measures :

The contractor shall take all necessary precautions for the safety of the workers and preserving their health while working in such job as require special protection and precaution. The following are some of the requirements listed. The contractor shall also comply with directions issued by the City Engineer in this behalf from time to time and at all times.

- 3.1.1** Providing protective footwear to workers, in situations like mixing and placing of concrete, cement mortar or bitumen mix in quarries and places where the work if done under too much wet conditions as also for movements over surfaces infested with oyster growth etc.

- 3.1.2 Providing protective head wear to workers, working in quarries etc. to protect them against accidental fall of materials from above.
- 3.1.3 Taking such normal precaution like providing hand rails at the edges of the floating platform or barges not allowing nails or metal parts or useless timber to spread around etc.
- 3.1.4 Supporting workmen with proper belt ropes etc. when working on any masts, cranes, grabs, hoist, dredgers etc.
- 3.1.5 Taking necessary step, towards training the workers concerned in the use of machinery before they are allowed to handle it independently and taking all necessary precautions in and around the areas where machine hoists and similar units are working.
- 3.1.6 Taking necessary precautions for the prevention from live electrical cables.
- 3.1.7 Making platforms, stages and temporary structures sufficiently strong so as not to cause inconvenience and risk to the workmen and supervisory staff.
- 3.1.8 Providing sufficient first aid facility at the work site to render immediate first aid treatment in case of accidents due to suffocations, drowning and other injuries.
- 3.1.9 Take all necessary precautions with regard to use of drivers.
- 3.1.10 Providing full length gum boots, leather hand gloves with fire proof apron to cover the chest and back, reaching upto knees and protective goggles for the eyes to the labourers working with hot asphalt handling, vibrator in cement concrete and also where use of any or all these items is beneficial in the interest of health and well being of the labourers in the opinion of the Engineer.

3.2 Explosives :

The contractor shall at his own expenses construct and maintain proper magazines, if such are required for the storage of explosives for use in connection with works, and such magazines being situated, constructed and maintained in accordance with Government Rules and Relevant legal provisions applicable in that behalf. The contractor shall at his own expenses obtain such licence or licences as may be necessary for storing and using explosives. Notwithstanding that the location etc. for storage of explosives are approved by the Engineer, the Government shall not be incurring any responsibility whatever in connection with storage and use of explosive on the site or any accident or occurrence whatsoever in connection therewith, all operations in or for which explosives are employed being at the risk of contractor and upon his sole responsibility and the contractor hereby gives to government an absolute indemnity in respect thereof.

\

3.3 Damage by Floods or Accidents :

The contractor shall take all precautions against damage by floods or from accidents etc. No compensation will be allowed to the contractor on this account or for correcting and repairing any such damage to the work during construction. The contractor shall be liable to make good at his cost any plant or materials belonging to the Government lost or damaged by flood or from any other cause which is in his charge.

3.4 Relation with Public Authorities :

The contractor shall comply with all rules regulations by laws and directions given from time to time by any local or Public Authority in connection with this work and shall himself pay fees or charges which leviable on him without any extra cost to the Department.

3.5 Police Protection :

For the special protection of Camp and of the Contractor's works, the Department will help the Contractor as far as possible to arrange for such protection with the concerned authorities if so requested by the contractor in writing. The full cost of such protections will be borne by the contractor.

3.6 Indemnity :

The Contractor shall indemnify the Thane Municipal Corporation all actions, suits, claims and demands brought or made against him in respect of anything done or committed to be done by the Contractor in execution of or in connection with the work of this contract and against any loss or damage to the Government in consequence of any Suit or action being brought against the contractor for anything done or committed to be done during execution of the work of this contract.

3.7 Labour and General Laws :

Labour Regulations :

- 3.7.1** The contractor shall employ labour sufficient numbers either directly or through sub-contractors to maintain the required rate of progress and of quality to ensure workmanship of the degree specified in the contract and to the satisfaction of the City Engineer.
- 3.7.2** The contractor shall not employ in connection with the works any person who has not completed his eighteenth year of age.
- 3.7.3** The contractor shall furnish to the City Engineer fortnightly distribution return of the number and description by trades of works people employed on the works.

3.7.4 The contractor is required to report immediately to the City Engineer any accident or unusual occurrence connected with the work and now he/they acted upon. The contractor shall also submit to City Engineer a true statement showing in respect of the second half of the preceding month and the first half on the current month.

(1) The accidents that occurred during the said fortnight showing the circumstances under which they happened and the extent of damage and injury cause by them and

(2) The number of female workers who have been allowed benefit under Maternity Benefit Act, 1961 or Rules made thereunder and the amount paid to them.

3.7.5 The contractor shall pay to the labour employed by him either directly or through sub contractor wages not less than fair wages as defined in the contract labour regulations as contained hereinafter in regards to all matters provided therein.

3.7.6 The contractor shall comply with the provisions of the payment Wages Act, 1936, Minimum Wages Act, 1948, Employees Liability Act, 1937, Workmen's Compensation Act, 1923, Industrial Disputes Act, 1947 and the Maternity Benefit Act, 1961, the contract Labour (Regulation & Abolition) Act, 1970, and the Interstate Migrant workman (Regulation of employment and conditions of service) Act, 1979, or any modification thereof or any other law relating thereto and rules made thereunder from time to time.

3.7.7 The contractor shall indemnify Thane Municipal Corporation payments to be made under and for the observance of the Regulations aforesaid without prejudice to his right to claim indemnify from his sub-contractors.

3.7.8 The decision of the City Engineer in matters relating to the reports from the Inspecting Officers, as defined in "Contractor Labour Regulation" (Contained hereinafter) shall be final and binding and deductions for recovery of any liquidated damages in this respect may be made from any amount payable to the contractor.

3.8 Model Rules for Labour Welfare :

The contractor shall at his own expenses comply with or cause to be complied with the Model Rules for Labour Welfare as contained hereafter or rules framed by Department from time to time for the protection of health and for making sanitary arrangements for workers employed directly or indirectly on the works. In case the Contractor fails to make arrangements as aforesaid, the Engineer in-charge shall be entitled to do so and recover the cost thereof from the contractor.

3.9 Safety Code :

The contractor shall at his own expense arrange for the safety provisions indicated hereafter or as required by the City Engineer in respect of all labour directly or indirectly employed for performance of the works and shall provide all facilities in connection therewith. In case the Contractor fails to make arrangements and provide necessary facilities as aforesaid the City Engineer shall be entitled to do so and recover the cost thereof from the contractors.

3.10 Nuisance :

3.10.1 The Contractor shall not at any time do, cause or permit any nuisance on the site or do anything which shall cause unnecessary disturbance or inconvenience to owners, tenants or occupants of other properties near the site and to the public generally.

3.10.2 The contractor shall save, harmless and indemnify the Department in respect of all claims, demands, proceedings damages, costs, charges and expenses what so ever arising out of or in relation to any such matters in so far as the contractor is responsible therefore.

3.11 Contract Labour Regulations :

Definitions :

In these regulations unless otherwise expressed or indicated the following words and expressions shall have the meaning hereby assigned to them.

- a) Labour would mean "Workmen" as defined in Chapter-I of the Contract Labour (Regulation and Abolition) Act, 1970 as amended from time to time.
- b) "Fair Wage" means Wages, which shall include wages for weekly day of rest and other allowances whether for time or piece work after taking into consideration prevailing market rates for similar employments in the neighbourhood and shall not be less than the minimum rates of wages fixed under the minimum Wages Act.
- c) "Contractor" for the purpose of these Regulations shall include an agent or subcontractor employing labour on the work taken on contract.
- d) "Inspecting Officer" means any Labour Enforcement Officer, or Assistant Labour Commissioner of the Chief Labour Commissioner Organisation.
- e) "Form" means a form appended to these Regulations.

3.12 NOTICE AND COMMENCEMENT :

The contractor shall within seven days of commencement of the work, furnish in writing to the Inspection Officer of the area concerned the following information under intimation to the Engineer-in-charge.

- (a) Name and situation of the work.
- (b) Contractor's name and address.
- (c) Particulars of the Department for which the work is undertaken.
- (d) Names and Addresses of sub-contractors as and when they are appointed.
- (e) Commencement and probable duration of the work.
- (f) Number of workers employed and likely to be employed.
- (g) "Fair Wage" for different categories of workers.

3.13 Number of hours of work which shall constitute normal working day :

The number of hours which shall constitute a normal working day for an adult shall be 9 hours. The working day for an adult worker shall be so arranged that inclusive of intervals, if any, for rest shall not spread over more than twelve hours on any day. When an adult worker is made to work for more than 9 hours on any day or for more than forty eight hours in any week he shall in respect of overtime work be paid wages at double the ordinary rate of wages.

NOTE: The expression ordinary rate of wage means the fair wage the worker is entitled to. (ii) Weekly day of Rest:

Every worker shall be given a weekly day of rest which shall be fixed and noticed at least 10 days in advance. A worker shall not be required or allowed to work on the weekly rest day unless he has or will have a substituted rest day on one of the five days immediately before or after the rest, provided that no substitution shall be made which will result in the worker working for more than 10 days consecutively with out a rest day for a whole day.

Where in accordance with the foregoing provision a worker works on the rest day and has been given a substitute rest day he shall be paid wages for the work done on the weekly rest day at the overtime rate of wages.

3.14 Display of Notice regarding wages weekly day of rest etc.

The Contractor shall before he commences his work on contract, display and correctly maintain and continue to display and correctly maintain in a clean and legible condition in conspicuous places on the works, notices in English and in a local Indian Language spoken by majority of workers, giving the rates of fair wages, the hours of works for which Such wages are payable, the weekly rest day, workers are entitled to and name and addresses of the Inspecting Officer. The contractor shall send a copy of each of such notice to the Inspecting Officer.

3.15 Fixation of Wage Periods :

The Contractor shall fix wage periods in respect of each wages that shall be payable. No wage period shall normally exceed one week.

3.16 Payment of Wages :

- a. Wages due to every worker shall be paid to him directly All wages shall be paid in current coins or currency or in both.
- b. Wages of every workers employed on the contract shall be paid, where the wage period is the week within three days from the end of the wage period, and in any other case before the expiry of the seventh day or tenth day from the end of the wage period according as number of workers does not exceed one thousand or exceeds one thousand, respectively.
- c. When employment of any worker is terminated by or on behalf of the Contractor, the Wages earned by him shall be paid before expiry of the day, succeeding the one on which his employment is terminated.
- d. Payment of wages shall be made at the work site on a working day except when the work is completed before expiry of the wage period, in which case final payment shall be made at the work site within 8 hours of last working day and during normal working time.

NOTE : The term “working day” means a day, on which work, on which labour is employed is in progress.

3.17 Register of Workmen:

A Register of workmen shall be maintained in Form-1 and kept at the work site or as near to it as possible, and the relevant particulars of every workman shall be entered therein within there days of his employment.

3.18 Employment Card :

The Contractor shall issue an employment card in Form-II each worker on the day of worker’s entry into his employment. If a worker has already any such card with his issued by the previous employer, the Contractor shall clearly endorse that employment card with relevant entries. On termination of employment the employment card shall be again endorsed by the Contractor and returned to the worker.

3.19 Register of Wages etc :

- (i) A Register of wages cum muster roll in Form-II shall be maintained and kept at the work site as near to it its possible.

- (e) Any other deduction which the Department may form time to time allow.
 - (ii) No fines shall be imposed on any worker save in respect of such act and omission on his part as have been approved of by the Chief Labour Commissioner.
 - (iii) No fine shall be imposed on a worker and no deduction for damage or loss shall be made from his wages until the worker has been given on opportunity of showing cause against such fines or deductions in writing.
 - (iv) The total amount of fines which may be imposed in any one wage period on a worker shall not exceed an amount due to him in respect of that wage period.
 - (v) No fine imposed on a worker shall be recovered from him in installments or after expiry of sixty days from the day on which it was imposed. Every fine shall be deemed to have been imposed on the day of the act or commissions in respect of which it was imposed.
 - (vi) The Contractor shall maintain both in English and the local Indian Language a list, approved by the Chief Labour Commissioner clearly

stating the acts and commission for which penalty or fine may be imposed on a workmen and display it in good condition in a conspicuous place on the work site.

3.21 Preservation of Registers

The register of workman and the register of wages cum muster roll required to be maintained under these Regulation shall be preserved for 3 years after the date on which the last entry is made therein.

3.22 Enforcement :

- (i) The Inspecting Officer shall either on his own motion or on a complaint received by him carry out investigations and send a report to the City Engineer specifying the amounts representing workers dues and amount of penalty to be imposed on the Contractor for breach of these Regulations, that have to be recovered from the Contractor, including full details of the recoveries proposed and the reasons therefore. It shall be obligatory on the part of the City Engineer on receipt of such a report to deduct such amounts from payments due to the Contractor.
- (ii) The penalty for every default and breach of these Regulations shall, however be a sum not exceeding Rs.5000/-. In the event of the Contractor's default continuing in this respect, the penalty may be enhanced to Rs. 50/- per day for each day **default subject to maximum of one percent of the estimated cost of the work put to tender.**

3.23 Disposal of amount recovered from the Contractor :

The City Engineer shall arrange payment to workers concerned within 46 days from receipt of report from Inspecting Officer except in cases where the Contractor has made an appeal under Regulation 15 of these Regulations. In case where there is an appeal payment of worker's dues Would be arranged by the City Engineer wherever such payments arise, within 30 days from the date of receipt of the decision of the Regional Labour Commissioner (R.L.C.).

3.24 Welfare Fund :

All moneys that are recovered by the City Engineer by way of worker's dues which could not be disbursed to workers within the time limit prescribed above, due to reasons Such as where about of workers not being known, death of a worker etc., and also amounts recovered as penalty shall be credited to a fund to be kept under the

custody of R.L.C. for Such benefit and welfare of workmen employed by Contractors are prescribed by the Chief Labour Commissioner.

3.25 Appeal against decision of Inspecting Officer

Any persons aggrieved by decision of the Inspecting Officer may appeal against such decision to the Reaional Labour Commissioner concerned within 30 days from the date of the decision forwarding, simultaneously a copy of his appeal to the City Engineer. The decision of the Regional Labour Commissioner shall be final and binding upon the contractor and the workmen.

3.26 Representation of Parties :

- (i) A workmen shall be entitled to be represented in any investigaiton or enquiry under the regulations by an officer or a registered trade union of which he is a member or by any Officer or a federation of trade union to which the said trade union is affiliated or where the workmen is not a member of any registered trade union, by an officer of a registered trade union connected with or by any other workmen employed in the industries in which the workmen is employed.
- (ii) A Contractor shall be entitled to be represented in any investigation or/enquiry under these regulations by an officer of an Association of Contractors of which he is a member or by a an officer of a federation or Associations of contractors to which the said Association is affiliated or where the contractor is not a member of an association by an Officer of association of employers, connected with or by any other employer engaged in the industries in which the contractor is engaged.
- (iii) No party shall be entitled to be represented by legal practitioner in any investigation or enquiry under these regulations.

3.27 Inspection of Books and other Documents

The Contractor shall allow Inspection of the registers and other documents prescribed under these regulations by Inspecting Officer and the City Engineer his authorized representative at any time and by the worker or his agent no receipts of due notice at a convenient time.

3.28 Amendments :

Thane Municipal Corporation may from time to time add to or amend these regulations and issue such directions as it may consider necessary for the proper implementation of these regulations or for the purpose of removing any difficulties which may arise in the administration thereof.

3.29 Model Rules for Labour Welfare

3.30 Definitions :

(a) Work Place:

“Work Place” means a place at which on an average 20 or more workers are employed.

(b) Large workplace :

“Large Work Place” means a place at which on average 500 or more workers are employed.

3.31 First Aid :

At every work place, there shall be maintained in a readily accessible place first aid appliances including an adequate supply of sterilized dressings and sterilized cotton wool as prescribed in the factory rules of the State in which the work is carried on. The appliance they shall be placed under the charge of responsible person who shall be readily available during working hours.

At large work places where hospital facilities are not available within easy distance of the works, first-aid posts shall be established and be run by a trained compounder.

Where large work places are remotely situated and far away from regular hospitals indoor wards shall be provided with one bed for every 250 employees.

Where large work places are situated in cities, towns or in their suburbs and no bed are considered necessary owing to the proximity of city to town hospitals, suitable transport shall be provided to facilitate removal of urgent cases to those hospitals. At other work places some conveyance facilities shall be kept readily available to take injured person or persons suddenly taken seriously ill, to the nearest hospital.

At large work places there shall be provided and maintained an Ambulance room of the prescribed size of such medical and nursing staff as may be prescribed. For this purpose the relevant provisions of the Factory Rules of the State Government of the Area where the work is carried on may be taken as the prescribed standard.

3.32 Accommodation for Labour :

The Contractor shall during the progress of the works provide, erect and maintain necessary temporary living accommodation and ancillary facilities for labour at his own expenses and to standards and scales as approved by the City Engineer.

3.33 Drinking Water :

In every working places there shall be provided and maintained at suitable places, easily accessible to labour a sufficient supply of cold water fit for drinking. Where drinking water is obtained from an intermittent public water supply each work place shall be provided with storage where drinking water shall be stored.

Every water supply storage shall be at a distance of not less than 15 meters from any latrine, drain or other source of pollution where water has to be drawn from an existing well, which is in proximity of latrines, drain or any other source of pollution, the well shall be properly chlorinated before water is drawn from it for drinking. All such wells shall be entirely closed in and be provided with a trap door which shall be dust and water proof.

A reliable pump shall be fitted to each covered well, the trap door shall be kept locked and opened only for cleaning or inspection which shall be done at least once a month.

3.34 Washing and Bathing Places :

Adequate washable and bathing places shall be provided separately for men and women. Such places shall be kept in a clean and drained condition.

3.35 Scale of Accommodation in Latrines and Urinals :

There shall be provided within the premises of every work place, latrines and urinals in an accessible place, and the accommodation separately for each of these, shall not be less than at the following scales

	No. of Seats
(a) Where number of persons does not exceed 50.	2
(b) Where number of persons exceeds 50 but does not exceed 100.	3
(c) For additional persons 3 per. 100 or part thereof.	

In particular cases, the Engineer-in-charge shall have the power to vary the scale, where necessary.

3.36 Latrines and Urinals :

Except in work places provided with water flushed latrines connection with a water borne sewage system, all latrines shall be provided with receptacles on dry earth system which shall be cleared at least four times daily and at least four times daily and

at least twice during working, hours and kept in a strictly sanitary condition. Receptacles shall be tarred inside and outside at least once a year.

If Women are employed, separate latrines and Urinals, screened from those for men and marked in the vernacular in conspicuous letters, "FOR WOMEN ONLY", shall be provided on the scale laid down in rule 6. Those for men should be similarly marked "FOR MEN ONLY". A poster showing the figures of a men and of a women shall also be exhibited at the entrance to latrines for each sex. There shall be adequate supply of water close to latrines and Urinals.

Construction of Latrines :

Inside wall shall be constructed of masonry or other non absorbent materials and shall be cement washed inside and outside at least once a year. The dates of cement washing shall be noted in a register maintained for the purpose and kept available for inspection, latrines shall have at least thatched roof.

3.37 Disposal of Excreta :

Unless otherwise arranged for by the local sanitary authority arrangement for proper disposal of excreta by incineration at the work place shall be made by means of suitable incinerator approved by the local medical, health and municipal authorities.

The Contractor shall, at his own expenses, carry out all instructions issued to him by tile City Engineer to effect proper disposal of excreta and other conservancy work in respect of contractor's work people or employees on the site. The contractor shall be responsible for payment of any charges which may be levied by municipal authority for execution of such work on his behalf

3.38 Provision of Shelter during Rest :

At every work place there shall be provided free of cost four suitable sheds, two for meals and two others for rest separately for use of men and women labour. Height of each shelter shall not be less than 3 meters from floor level to lowest part of the roof Shed shall be kept clean and the space provided shall be on the basis of at least 0.5 sq. meter per head.

3.39 Creches :.

At a place at which 20 or more women workers are ordinarily employed, there shall be provided at least one hut for use of children under the age of 6 years, of such 1 women.

Huts shall not be constructed of a standard lower than that of thatched roof, mud floor and walls with wooden planks spread over mud floor and covered with matting. Huts shall be provided with suitable and sufficient opening for light and ventilation. There shall be adequate provision of sweepers to keep the places clean. There shall be two “Dais” in attendance. Sanitary utensils shall be provided to the satisfaction of local medical, health and municipal or cantonment authorities. Use of huts shall be restricted to children, their attendants and mothers of children.

Where the number of women workers is more than 25 but less than 50, the Contractor shall provide at least one Hut, one Dai to look after the children of women workers, size of the creche(s) shall vary according to the number of women workers employed. Creche(s) shall be properly maintained and necessary equipment like toys etc., provided.

3.40 Canteen :

A cooked food canteen on a moderate scale shall be provided for the benefit of Workers wherever it is necessary.

Planning sitting and erection of the above mentioned structures shall be approved by the City Engineer and the whole of such temporary accommodation shall at all times during the progress of the works be kept tidy and in a clean and sanitary condition to the satisfaction of the City Engineer and at the Contractor’s expenses. The Contractor shall conform Generally to sanitary requirements of local medical, health and municipal or cantonment authorities and at all times adopt, such precautions as may be necessary to prevent soil pollution of the site. On completion of the works the whole such temporary structures shall be cleared away, all rubbish burnt, excreta or other disposal pits ortrenches filled in and effectively scaled off and the whole of site left clean and tidy to the entire satisfaction of the City Engineer at the Contractor’s expenses.

3.41 Anti Malarial Precautions :

The Contractor shall, at his own expenses, conform all anti-malarial instructions given to him by the Engineer-in-charge, including the filling up of any borrow pits which may have been dug by him.

3.42 Nothing payable for extra facilities :

These are minimum facilities required to be provided. If the contractor gives any extra facility, the Thane Municipal Corporation will not compensate him for that.

3.43 Enforcement :

The inspecting Officer or any other officer nominated in this behalf by the City Engineer shall report to the City Engineer all cases of failure to comply with the provisions of these Rules either wholly or in part, specifying the penalties to be levied for such breach of these provisions.

3.44 The sum to be levied as penalty shall, however, be fixed in accordance with provision of clause 13(ii) of safety code.

4 DEFINITIONS :

Unless excluded by or repugnant to the context.

- a) The expression “TMC” as used in the tender papers shall mean the Thane Municipal Corporation, Thane.
- b) The expression “Department” as used in the tender papers shall mean the Public Works Department of the Thane Municipal Corporation, Thane.

- r) Wherever there is mention of “Schedule of rates” or simply D.S.R. or Schedule Rates in this tender it will be taken to mean as “The Schedule of the rate of Thane Public Works Circle, Thane.

5 LEVELLING INSTRUMENTS :

If measurement of items of the work are based on volumetric measurements calculated from levels taken before and after construction of the item, a sufficient number of levelling instruments, staves, tapes etc. will have to be kept available by the contractor at road site of work for this purpose including theodolite. All instruments must be kept at road site available for use to TMC staff. Lack of such levelling instruments, staves, tapes etc., in required numbers may cause delay in measurements and the work. The contractor will therefore to keep sufficient number of these readily available at site.

6. COLLECTION OF MATERIALS :

- (i) The contractor or piece worker shall make his own arrangements to obtain the material from existing or a new quarries but before starting collection the quarry shall be got approved by the City Engineer or his representatives. The contractor or piece worker shall pay all royalty charges, compensation etc. No claims or responsibility on account of any obstructions caused to execution of the work by difficulties arising out of private owners of land, will be entertained.
- (ii) No material shall be removed from the land touching it without the written permission of the City Engineer or his authorised representative. If any material is unauthorisedly obtained from such places, the contractor or piece worker shall have to make good the damage and pay such compensation, in addition as may be decided by the City Engineer and will have to stop further collection.
- (iii) Any material that falls on any Thane Municipal Corporation Road from the carting truck or other plant etc. during, conveyance shall be immediately picked up and removed by the contractor or piece worker, failing which it be got removed departmentally at his cost. No heap shall be left prior to stacking even temporarily on the road surface or in any way so as to cause any obstruction or danger to the traffic. The contractor or the piece worker shall be liable to pay claims or compensation etc. arising out of any accident etc. Any

such materials causing obstruction or danger etc. will be got removed departmentally at his cost and no claims for any loss or damage to the material thus removed will be entertained. The contractor shall also be responsible for the damage or accident etc. arising out of any material that falls on the road or track not in charge of the department and shall attend to any complaints which may be received.

- (iv) The materials shall not be collected in place where it is liable to be damaged or lost due to traffic passing over it, to be washed away by rain or floods to be buried under the land slide etc. or to slip down of embankment or hill side etc. No claims for any loss due to these and similar cause will be entertained.
- (v) Rubble/metal shall be free from all earth, rubbish, vegetable matter and other extraneous substances and in the case of metal, screened to gauge, if so directed when ready, it shall be collected entirely clear of the roadway, on ground which has been cleaned of vegetation and levelled.
- (vi) The size of the stacks like rubble shall be of such size as may directed by the City Engineer and all stacks shall be of the same uniform size and shall be uniformly distributed over whole lengths.
- (vii) The representative of the Engineer-in-charge shall supply the contractor with statement showing Sub Km., wise quantities that will be required in the order in which the utilisation is to be done. Any excess quantity shall be removed at the expenses of the contractor before the material in the length is finally measured.
- (viii) If directed, the material shall be collected in the following order according to availability of space : (1) Rubble (2) Metal (3) Soft Murum and (4) Hard Murum, shall be collected on the side opposite to that on which soft murum has been collected. Similarly metal collected for petty repairs shall be stacked on the opposite to metal for new layer.

All road materials shall be examined before it is spread. The labour for measurements (and check measurements wherever carried out) shall be supplied by the contractor or piece worker. If the contractor or piece worker fails to attend the measurements of material after receiving the notice from the Engineer's representative or his subordinate stating date and time of intention of measuring the work, the work shall be measured exparte and no complaint

in this respect will be entertained later on. If the contractor or piece worker fails to attend the measurement of material after receiving the notice from the Engineer's representative or his subordinate stating date and time of intention of measuring the work, the work shall be measured exparte and no complaint in this respect will be entertained later on. If the contractor or piece worker fails to supply sufficient labour or the materials required at the time of measurements or check measurement, after due notice has been given to him, the expenses incurred on account of employing departmental labour or material etc. shall be charged against his account.

7. MISCELLANEOUS

- 7.1** Rates shall be inclusive of Work Contract Tax, Sales Tax and all other taxes etc. and octroi as stated in para 2.12 of this chapter, except of octroi exempting for plant and machinery used for the this work will be given but deposit of Rs. 1,00,000/- will have to be paid.
- 7.2** In case it becomes necessary for the due fulfillment of contract for the contractor to occupy land outside the department limits, the contractor will have to make his own arrangements with the land owners and to pay such rent if any payable as mutually agreed between them.
- 7.3** The special provision in detailed specifications or wording of any item shall gain precedence over corresponding contradictory provision, (if any), in the M.O.R.T.H specifications, the Maharashtra P.W.D. Standard specifications where reference to such specifications is given without reproducing the details in contract.
- 7.4** It is presumed that the contractor has gone carefully through the M.O.R.T.H specifications Maharashtra P.W.D, Standard specifications, IRC specifications, guidelines and the schedule of rate, all condition of the contract and Studied the site condition before arriving at rates quoted by him. Decision of the City Engineer shall be final as regards interpretation of specification.
- 7.5** The collection and storage of construction materials at site shall be in such a manner as to prevent deterioration intrusion, of foreign matter and to ensure the preservation of their quality, properties and fitness for the work. Suitable precautions shall be taken by the contractor to protect the material against atmospheric actions, fire and other hazards. The materials likely to be carried away by wind shall be stored in

suitable stores or with suitable barricades and where there is likely hood of subsidence of soil, such heavy materials shall be stored on paved platforms.

- 7.6** The contractor shall be responsible for making good the damages done to the existing property or work during construction by his men.
- 7.7** If it is found necessary from safety point of view to test any part of the structure, the test shall be carried out by the Contractor with the help of the department at his own cost.
- 7.8** **Defective work is liable to be rejected at any stage. The contractor, on no account can refuse to rectify the defects merely on reasons that further work has been carried out. No extra payment shall be made for rectification.**
- 7.9** In the absence of specific directions to the contrary, the rates and prices inserted in the items are to be considered as the full inclusive rates and prices for the finished work described there under and are to cover all labour, materials, wastage, temporary work, plant, overhead charges and profits, as well as the general liabilities, obligations and risks arising out of the General Condition of Contract.
- 7.10** The quantities set down against the item in the Schedule “B” are only estimated quantities of each kind of work included in the contract and are not to be taken as a guarantee that the quantities in the schedule will be carried out or required or that they will not be exceeded or reduced.
- 7.11** All measurements will be made in accordance with the methods indicated in the elaborated in the Technical specifications, incorporated in the tender document.
- 7.12** The details shown on drawing and all other information pertaining to the works shall be treated as indicative and provisional only and these are liable to variation as found necessary while preparing working drawing which will be supplied by the Thane Municipal Corporation. The contractor shall not, on account of such variation be entitled to any increase over the already quoted rates in the tender which are on quantity basis.
- 7.13** Protection of underground telephone cable and aerial telephone wires and Poles, transmission towers, electrical cables and water supplying lines is the responsibility of the contractor.

During the execution of work, it is likely that the contractor may meet with telephone cable, electrical cables, water supply lines, effluent pipe line, oil pipe line etc. it will therefore be the responsibility of the contractor to protect them carefully. All such

cases should be brought to the notice of the City Engineer by the contractor and also to the concerned Department. **Any damage whatsoever done to these cables and pipe lines by the Contractor shall be made good by him at his cost.**

8 LINING OUT :

The Contractor shall provide free of charge all labour and material and instruments required for lining out, surveying, inspection decided by the City Engineer as considered necessary for the proper and systematic execution of the work.

The department will only show the changed point on the alignment of road and it will be the responsibility of the contractor to correctly align the road between points including setting out curves etc. The Department will render necessary assistance. Likewise, only one Bench Mark with definite value of R.L. will be shown to contractor who shall have to provide for a network of temporary bench mark all along the road and near C.D. works for executing the work. The contractor shall be responsible for the provision, accuracy and maintenance of temporary Bench Mark. He shall be responsible for the correctness of the position, levels, dimension and alignments of all parts of the works and provisions of necessary instruments and labour in connection with suitable pointed bamboos or wooden stack shall be provided at his cost and firmly fixed at every meters on both sides of embankment to indicate final as well as intermediate height of the embankment. Any errors in position, levels, dimension and alignment, etc. shall be rectified, by contractor at his expenses. The checking or inspection of any setting out of any line or level or work by City Engineer or his representative shall not in any way relieve the contractor of his responsibility for correctness thereof. The contractor shall carefully protect and preserve all bench mark, side rails pegs and stones etc., marking out the centre lines of C.D. works, necessary approaches etc. shall be done by the contractor at his own cost as directed by the City Engineer or his representative.

9. PRIORITIES OF WORK TO BE EXECUTED :

Priorities for items to be executed shall be determined periodically keeping in view the final time limit allowed for the work.

10 HANDING OVER OF WORK :

All the work and materials before finally taken over by Government, will be the entire liability of the contractor for guarding, maintaining and making good any damages of any magnitude. Interim payments made for such work will not alter this position.

11 DISPUTES AND ARBITRATION :

11.1 No Arbitration is allowed.

11.2 In case of **disputes or difference of opinion** arising between the City Engineer and the Contractor, the Contractor refer the matter to the Commissioner through the City Engineer with an advance copy to the Commissioner and the **decision of Commissioner will be final** in this case.

12 TESTS :

12.1 The contractor shall at his own cost arrange to carry out the all tests of materials which are to be used on the work. The tests will have to be carried out either in the field laboratory or in an approved laboratory suggested by T.M.C. Routine Test shall mean testing of aggregates for gradation flakiness index , impact value, binder content and field density etc. Chart showing frequency of tests is attached in APPENDIX-III

12.2 Department will also carry out some of above mentioned tests independently in Laboratory and testing charges thereof will be borne by the contractor. Also the **work portion where test results are not satisfactory will have to be removed and redone at the cost of the contractor.**

12.3 Before beginning of the work and in intervals tests will be carried out by the contractor to determine the, quantities necessary for achieving the required compacted thickness of all types of B.T. work. These results will be guiding actor for execution of work. However, the contractor is responsible to give correct compacted thickness of the work of all types of B.T. and other relevant items.

12.4 In case of materials procured by the Contractor, testing as required by the codes and specifications, the same shall be arranged by him at his own cost. at the nearest approved Laboratory. If additional testing other than as required by specification is ordered, the testing charges, shall be borne by the contractor.

12.5 The Cubes (3 nos) shall be tested three day, 3cubes for Seven Days strength at the site laboratory in the presence of Engineer-in-charge of the work. Whenever the material cubes and beams of 28 days (3 nos each) strength are required to be sent to the Municipal Laboratory then the same shall be transported by the contractor and got tested at their own cost.

12.6 10 % of the rate of the item shall be withheld and shall be released only after receipt of satisfactory test results whenever specified.

13 FINAL BILL :

- 13.1** The contractor should submit final bill within one month after completion of the work and the same will be paid within 6 months if it is in order. Disputed items and claims, if any shall be excluded from the bill and settled separately later on.
- 13.2** Bills for extra work or for any claim shall be paid separately apart from the interim bills for the main work. The payment of bills for the main work shall not be withheld for want of decision on the extras on claims not covered in the stipulation of the contract.
- 13.3** Claims for extra work shall be registered within 30 days of occurrence of the event or in any case not later than 30 days of submission of final bill by contractor . However, bills for these claims including supporting data/details may be submitted subsequently to the City Engineer.

14 ELECTRIC POWER :

- 14.1** Arrangements for obtaining Electric Power connection will have to be made by the contractor at his own cost.

15 PRELIMINARY ARRANGEMENTS :

- 15.1** The Contractor except as provided in schedule “B” which follows, shall, if necessary construct, temporary roads and maintain these in proper condition till the completion of the work at his own cost. If necessary, he shall also, at his own expenses make necessary arrangements for acquisition of land required by him in connection with execution of the work.
- 15.2** The Contractor shall have to make at his own cost all preliminary arrangements for labour, water, electricity and materials etc., immediately after getting the work order. No claim for any extra payment or application for extension of time on the grounds of any difficulty in connection with the above matter, will be entertained.
- 15.3** The contractor shall at his own expenses engage watchman for guarding the materials and plants and machinery and the work during day and night against any pilferage or damages and also for prohibiting trespassers or damage to them.Failing,Corporation may engage this without intimation to contractor and payment will be recovered through R.A.bills.
- 15.4** The Contractor shall have to make his own arrangements for water required for watering the embankment or for any other purpose.

16. INSPECTION :

16.1 The contractor shall inform the City Engineer in writing when any portion of the work is ready for inspection giving him sufficient notice to enable him to inspect the same without affecting the further progress of the work. The work shall not be considered to have been completed in accordance with the terms of the contract until the City Engineer shall have certified in writing to that effect. No approval of materials or workmanship or approval of part of the work during the progress of execution shall bind the City Engineer or in any way affect him even to reject the work which is alleged to be completed and to suspend the issue of his certificate of completion until such alternations and modifications or reconstruction have been effected at the cost of the contractor as shall enable him to certify that the work has been completed to his satisfaction.

16.2 The contractor shall provide at his cost necessary ladders and such arrangements as to provide necessary facilities and assistance for proper inspection of all parts of the work at his own cost.

16.3 The contractor after completion of work shall have to clean the site of all debris and remove all unused materials other than those supplied by the Department and all plant and machinery, equipment, tools etc., belonging to him within one month from the date of completion of the work, or otherwise the same shall be removed by the Department at his cost and the contractor shall not be entitled for payment of any compensation for the same.

17 PLANT :

All constructional plant, provided by the contractor shall when brought on to the site be deemed to be exclusively intended for the construction of this work and contractor shall not remove the same or any part thereof (say for the purpose of moving it from one part of the site to another or the repairs etc.) without the consent in writing of the City Engineer which shall not be unreasonably withheld.

18 AUTHORITIES TO THE CITY ENGINEER REPRESENTATIVE:

18.1 The City Engineer may from time to time, in writing delegate to his representative any powers and authorities vested in the City Engineer and shall furnish to the contractor a copy of all such delegations of powers and authorities. Any written instructions of approval given by the representative of the City Engineer to the contractor within the terms of such delegations (but not otherwise) shall bind the

contractor and the department as though it had been given by the City Engineer provided always as follows :-

- 18.2** Failure of the representative of the City Engineer to disapprove any work or materials shall not prejudice the power of the City Engineer thereafter to disapprove such work or materials and to order the pulling down, removal or breaking up thereof.
- 18.3** If the contractor shall be dissatisfied with any decision of the representative of the Engineer-in-charge, he shall be entitled to refer the matter to the Engineer in-charge, who shall there upon confirm reverse or vary such decision.

19. EXCEPTED RISKS :

The contractor shall be under no liability whatsoever by way of indemnity or otherwise for or in respect of destruction of or damage to the works (save work condemned under the provisions of specifications and conditions of this tender prior to the occurrence of any excepted risk hereinafter mentioned) or temporary works or to property whether of the Department or third parties or in respect of injury or loss of life which is the consequence whether direct or indirect, war hostilities (whether war be declared or not) invasion, act of foreign enemies, rebellion, revolution, insurrection or military of usurped power, civil war or riot, commotion or disorder otherwise than among the contractor's own employees or his piece worker and sub-agencies (hereinafter comprehensively referred to as "the said excepted risks") and the Department shall indemnify and save harmless the contractor against and from the same and against and from all claims, demands, proceedings, damages, costs charges and expenses, whatsoever arising thereout or in connection therewith and shall compensate the contractor for any loss of or damage to property of the contractor used for intended to be used for the purpose of the works and laying at site of work and occasioned either directly or indirectly by the said excepted risks.

- 19.2** If the works sustain destruction or drainages by reasons of any of the said excepted risks, the contractor shall be entitled to payment for any permanent works and for any materials so destroyed or damaged and shall be paid by the department the cost of making good tiny such destruction or damages whether to the works or Temporary works and for replacing,, or making good Such materials so far as may be necessary for the completion of the works on a prime costs basis as the City Engineer may certify to be reasonable. The contractor shall lodge his claim, in writing, supported by

City Engineer immediately, but not later than 30 days of such occurrence of damage to works by excepted risk.

19.3 Destruction, damage injury or loss caused by the explosion or impact whenever and wherever occurring of any mine, bomb, shell, grenade or other projectile missile or ammunition or explosive or was resulting from action described in 19.1 above shall be deemed to be a consequence of the said Excepted Risks.

20. ADDITIONAL WORKS SPECIFICATIONS :

20.1 The whole work shall be carried out strictly in accordance with the approved detailed drawing (unless otherwise directed) description of the items, detailed specification of M.O.R.T.H for Bridge and Road Works August 2001 (with Indian Standard specification indicated therein) subject to the additional specification given for the relevant items and in the best workmen like manner and P.W.D. specification.

20.2 While adopting the relevant number and pages for different items of the M.O.R.T.H specifications for Bridges and Road Works, August 2001 or P.W.D., Standard Specification Books, due care has been taken to indicate correct number and page for the various items. However if for some reasons or other it is noticed that the specification numbers and pages quoted are not pertinent, the contractor is bound to carry out the work in accordance with the correct relevant specifications for the item or items from the standard specification Book, after taking into account the description of the items, scope and spirit of the work.

20.3 During the course of the execution, payment for certain items such as R.C.C. works and the like which are done in stages, shall be made at part rates which shall be decided by the City Engineer. Similarly in case if certain component or components of an item are decided to be deleted, payment for the remaining parts of the items shall be made at reduced rates for such items which shall be decided by the City Engineer, either on the basis of market rates or schedule rates or accepted tender rates whichever are lowest for such component or components.

20.4 It is to be definitely and clearly understood that the specification stipulated shall be rigidly enforced and no relaxation shall be allowed. Extra charges or claims in respect of extra works shall not be entertained unless they are clearly outside the scope of the item and its specifications to which they relate or unless such works are ordered in writing by the City Engineer and claimed for in specified manner before the same is taken in hand.

21 CONTRACTOR'S LIABILITY AND INSURANCE :

- 21.1** From commencement to completion of the works, the Contractor shall take full responsibility for the care thereof and for taking, precaution to prevent loss or damage to the greatest extent possible and shall be liable for any damage or loss that may happen to the works or any part thereof from any cause whatsoever (save and except the Excepted Risks) and shall at his own cost repair and make good the same so that at completion, the works shall be in good order and condition and in conformity in every respect with requirements of the contract and instructions of the City Engineer.
- 21.2** Without limiting his obligations and responsibilities under clause 25.2 the contractor shall insure in the joint name of the Thane Municipal Corporation and the contractor against all loss or damage from whatever cause (other than the Excepted Risks) for which he is responsible under the terms of the contract and in Such manner that the Thane Municipal Corporation and the contract are covered during the period of construction of the works and the defects liability period for loss or damage arising from a cause occurring prior to the commencement of the damage caused by the Contractor in the course of any operation carried Out by him for the purpose of complying with his obligations under clause 20 of Printed B-1 Tender Form (regarding Defect Liability).
- (i) The works and the temporary works to the full value of such works executed from time to time.
 - (ii) The materials, constructional plant and other things brought to site by the in contractor to the full value of such material, constructional plant and other things.
- 21.3** The Contractor shall indemnify and keep indemnified the Thane Municipal Corporation against all losses and claims for injuries or damages to any person of contractor & TMC supervising the work or any property whatsoever which may arise out of or in consequence of the construction and maintenance of the works and against all claims, demands, proceedings, damages, accidents, costs, charges and expenses whatsoever in respect of or in relation thereto provided always that nothing herein contained shall be deemed to render the contractor liable for in respect of or to indemnify the Department against any compensation or damage caused by "EXCEPTED RISKS".
- 21.4** Before commencing execution of the work, the contractor shall, without in anyway limiting his obligations and responsibilities under the conditions, insure against any

damage, loss or injury which may occur to any property (including that of Department) or to any person (including any employee of Department) by or arising out of carrying out of the Contract.

- 21.5** The contractor shall at all times indemnify the Department against all claims, damages or compensation under the provisions of payments of wages Act, 1936, Minimum Wages Act, 1948, Employment Liability Act, 1938, Industrial Disputes Act, 1947, and the Maternity Benefit Act, 1961 and Inter State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 or any modifications thereof or any other law relating thereto, any rules made there under from time to time or as a consequence of any accident or injury to any workmen or other person in or about the works, whether in the employment of the contractor or not, save and except where such accident or injury has resulted from any act of the Department, their agents or servants and also against all costs, charges and expenses or any suit, action or proceedings arising out of such accident or injury and against all sum or sums which may with the consent of the contractor be paid to compromise or compound any such claim without limiting his obligation and liabilities as above provided the contractor shall insure against all claims, damages or compensation payable under the workmen's Compensation Act, 1923 or , any modifications thereof any other law relating thereto.
- 21.6** All the aforesaid insurance policies shall provide that they shall not be canceled till the City Engineer has agreed to their cancellation.
- 21.7** The contractor shall prove to the City Engineer his authorised representatives from time to time that he has taken out all the insurance policies referred to above and has paid the necessary premia for keeping the policies alive till the expiry of the Defects Liability period.
- 21.8** The Contractor shall ensure that similar insurance policies are taken out by his sub-contractor (if any) and shall be responsible for any claims or losses to department resulting from their failure to obtain adequate insurance protection in connection thereof. The Contractor shall produce or cause to be produced by his sub-contractors (if any) as the case may be relevant policy or policies and premium receipts as and when required by the City Engineer.

If the Contractor and/or his Sub-contractor (if any) shall fail to effect and keep in force the insurance referred to above or any other insurance which he/they may be

required to effect under the terms of the contract then in any such case department may without being bound and to effect and keep in force any such insurance and pay such premium or premia as may be necessary for that purpose and from time to time deduct the amount so paid by the department from any money due or which may become due to the contractor or recover the same as a debt due from the contractor.

21.9 Third party insurance

Before commencing the execution of the work , the contractor (but without limiting with obligation & responsibility under clause 21.10.1 hereof) shall insure in the joint names of the employer and the contractor against any damage or lose or injury which may occure to any property or to any persom (including property & employes of the employer) by or arising out of the execution of the works or temporary works in carrying out of the contract, such insurance shall be affected with an Indian insurance company and in terms approved by the employer (which approval shall not be unreasonably with held) and for atleast the amount shown in the appendix to the tender as the contractor shall have to produced to the engineer in charge the **policy or policies of insurance and the receipt for the payment of current premiums Rs. 5 lacs has been indicated as liability of any one incident.** This shall be restored back to same value after every incident taking place till the completion of the contract.

21.9.1 Risk pending completion:

All the works of this contract until completion of contract and handling over the work to the employer shall stand at the risk of the contractor who shall be responsible and make good at his own costs all loses and damages caused by or by due to fire, weather or any other cause and the contractor shall handover such works complete in every respect on completion of works.

22 PRESERVATION OF PROPERTY :

The contractor shall take all reasonable precaution for the protection and preservation of any or all existing road side trees, drains, sewers or other surface drain pipes, conduits and any other.structure under or above ground which may be affected by the constructions, operations and which in the opinion of the Engineer shall be continued in use without any change. Safegards taken by the contractors in this respect shall be got approved by him from the engineer. However, if any of these objects is damaged by reason of the contractor's negligence, it shall be replaced or restored to the original condition at his expense.

23 PROVISION OF LIGHTING OF WORK :

All excavations, trenches, obstructions, materials etc. taken in connection with the works would be sufficiently lighted at night in order to guard against any damage or danger to the traffic and to take all precautions to keep all the lamps lighted all night for the guidance of the traffic in the following manner

1. All lamp must be kept at a height of about 1 m to 1.25 m (3' to 4' at strategic points).
2. All lamps should be red in colour.
3. All lamps across, directions of traffic should be spread at a distance of not more than 2 m (7') apart.
4. All lamps along the line of traffic should be spaced not more than 9m to 15m (30' to 40') apart.
5. To take such other measures as may be directed by the engineer from time to time for the safety of the traffic.
6. The contractor shall make all proper provisions for protecting the work by providing portable barricades with flashers otherwise known as blinkers. Specifications of blinkers are as follows
 - a) Series 6100 blinker unit consisting of a solid state oscillator driver circuit using silicon transistor, tropicalised printed circuit card, driving a 2.4 watt filament lamp in a screw holder-.
 - b) The unit contains 4 flash light cells (type 1.5 v) in a battery compartment in the base removable bottom to facilitate quick battery change.
 - c) The assembly housed in a specially shaped handy box, ms fabricated, printed in attractive traffic yellow with regulation slips on the visible base, bakelite handle on top for carrying. The side fitted with prefocussed moulded polystyrene lenses red or amber having prismatic inner surfaces for efficient light transmission. Visibility approximately 150 meters on dark night.

In the event of the contractors not complying with the provisions of the clauses, the engineer may without notices to the contractor put up the barricades or improve upon the same or provide or improve the lighting to adopt such procedures as may

be adopted by the engineer shall be born by the contractor shall be charged a penalty of Rs. 500/- per day till compliance of these requirements.

24 RAISING OR LOWERING MANHOLES, CHAMBERS, WATER ENTERANCES ETC. :

24.1 Required level shall be achieved in brick work as specified including plaster. The thickness of joints shall not exceed 10mm (3/8"). case The frame of manhole must rest on C.C coping

24.2 All frames of manholes and chambers etc. shall be kept flush with the general surface of an asphalt road/concrete pavement.

24.3 Valve chamber frames being on the edge of the road, shall be fixed to the correct road level .

24.4 A concrete pavement should be cast around the frames and covers of manholes, chambers, etc., in case of aspaltic roads.

24.5 The space around circular frames and covers shall be fully paved with (C.C.1: 11/2:3) as specified and directed. The pavement shall be atleast 8 centimeter (3") wider than the outer most edge of the circular frame. No payment will be made of this pavement under the item of cement concrete.

24.6 The space to be paved around hydrants or sluice boxes shall be 1 x 1.5m x 1.5m (5' x 5') in external measurements and in case of gas syphone or chamber 91 centimeter x 61 centimeter (3' x 2') the longer dimention being along the direction of the main.

24.7 In Case of rectangular frame work covers the space as directed by the engineer shall be paved with 1: 1.5:3 C.C. No payment will be made for the pavement which should be at least 8 centimeter wider than the outer most edge of the frame.

All type of service Manhole bays should be paved within 48 hours after adjoining pavement casting.

Chapter – IV

Special Conditions of Contract

CHAPTER - IV

SPECIAL, CONDITIONS OF CONTRACT

1.0 There may be underground services such as water supply, sewerage, electric, telephone cable etc. which may be required to be removed, shifted by the concerned authorities. No survey of underground services are carried out by TMC. As per the requirement they will have to be taken up the possible delay due to such services have to be accounted by agency though time delay could be considered on merit by no extra compensation for such delay will be made. TMC as proposed to lay water supply and sewerage lines below ground simultaneously to cater to 30 years need so that future cutting of roads could be avoided.

The tenderer should carry out additional works like major/minor repairs, lowering and laying of water and sewerage lines and their required relative works as and when required, the works will be executed at the same rate of D.S.R. consider for the estimate of this work & the same tender condition as directed by engineer in charge. However City engineer will be the final authority to execute such works through labour societies or other agencies.

2.0 The contract rate shall include providing by contractor fully equipped laboratory at the RMC plant / hot mix plant for testing materials etc. in the presence of departmental engineer or his authorised representative.

3.0 The work has to be executed true to line, levels, camber etc. The contractor shall provide sufficient surveying and mathematical instruments etc. and technical personnel so as to ensure quality of work strictly as per specifications. Camber plates and straight edges shall be provided in sufficient number on site to measure longitudinal profile and cross profile. Camber plates shall be prepared out of Alluminium. After asphalt work is completed, it shall be checked for cross profile jointly by the Contractor and Engineers of T.M.C. Correction if any shall be done by the contractor and surface shall be within tolerance limit as prescribed in M.O.R.T.H specification of 2001 edition. Without record of this camber checking asphalt items payment shall not be released. The surface must be brought to the required shape given in the specification and drawing. On plant also the representative of TMC will be posted. The samples of 30/40 & 60/70 grade asphalt shall be checked frequently in the field laboratory and plant laboratory and record maintained in bound volumes.

- 4.0** The contractor shall submit **PERT programme as well as Bar charts** depending upon site problems and review the same at very close intervals of 15 days to a month. The PERT programme and Bar charts shall detail gainful employment of mobilisation and for their flexibility depending upon availability or otherwise of work front.
- 5.0** There shall be sufficient documentation of the work in the form of test records, registers, challans survey records of levels, photographs etc. at the cost of contractor. The contractor shall provide necessary registers for recording test results jointly, forms, stationary etc. at his cost. All the test results in field and in the laboratory shall be signed by representative of contractors.
- 6.0** The Tender items of earthwork in embankment shall have its top layer with 30 cm of non plastic murum having minimum soaked C.B.R. of 6. The compaction shall be done in layers of 20 cm loose with vibratory roller at O.M.C. for 100% proctor density. The contract rate is for cross sectional measurement and items shall include providing murum laying in layers compaction with vibratory rollers and testing for laboratory and field density, C.B.R. and P.I. value. The payment will be released after satisfactory test record is produced with the bill.
- 7.0 L Sections - Cross Sections - Mode of Measurements :**
Soon after issue of work order the contractor shall establish Bench mark on permanently fixed locations or on un-disturbed locations. Bench markings levels should be at interval, not more than 50 meter. This bench marking levels shall be got cross checked by the Dy. Engineer of T.M.C. and records shall be submitted to the City Engineer, Executive Engineer. One copy retain with the contractor. After issuing of work order and availability of the land in part or in full. The contractor shall take joint ground levels (initial levels) alongwith the Executive Engineer, or his authorised representatives and got cross checked through the Executive Engineer. He shall also survey the alignment of the road and submit copy of the joint levels and plans duly signed by himself and the representative of the Executive Engineer through the City Engineer, who shall get one set of longitudinal section including curve tables, super elevation, starting point of curve, end point of curve, plotted at 'L' section sheet as well as plotted on plans. The contractor shall issue one copy of the 'L' sections and the cross sections, including the curve tables duly signed by the City Engineer, approved by City Engineer, before commencement in further work on the road. This condition is compulsory and shall not be neglected. **In case the contractor defaults to obtain duly approved 'L' sections and cross sections from City Engineer before commencement of the work no claims/complaints**

regarding delayed payments or non-payments or not entertaining payment for excess quantity shall be entertained. The contractor shall maintain one copy of the approved 'L' sections and cross sections at the site. Along with each bill the contractor shall forward cross sectional measurements for each of items such as excavation, embankment, W.B.M. and B.M. asphalt concrete, cement concrete sections & mastic junction etc. The cross sectional measurement of bituminous items shall also be supported with weigh bridge challans of the mix. There shall be joint independent measurement of selected truck/dumper, as may be selected by Engineer or his representative in respects of bituminous mix for B.M./A.C. for independent weigh bridge. All the payments of the weigh bridge shall be made by the contractor at his cost.

7.0 (A) Plane Table Survey Work :

The Contractor should carry out the plane table survey as per the alignment & the related details of the roads, such as widths, etc.

The plane table survey will include the following salient features such as –

- i) Buildings with its name
- ii) Temporary or permanent structures
- iii) Cross roads
- iv) Culverts
- v) HT lines, Electrical poles, street lights
- vi) Existing footpaths & S.W. gutters
- vii) MTNL manholes etc.
- viii) Traffic signals
- ix) Subways

The plane table survey should be completed to the scale of 1 :500

The surveyor should submit five ammonia prints and one tracing of the plane table survey works & levels of road at the interval of 15 m in length & 3 m in width with longitudinal section & existing cross section along with footpath at the interval of 100 m.

8.0 When excavated earth from the road ways, gutter etc. are required to be transported, the payment shall be against the compact quantities of transported material as per the cross sectional measurement of the excavation. It shall be so planned that the contractor shall use all the excavated approved earth in the embankment work and the excess soil only should be transported. The surplus earth to be used as indicated by

the City Engineer. In case the contractor neglect to use excavated earth in the embankment by proper planning re/handling will be at his cost & Necessary reduction in the excavated earth will be made in embankment. Regarding transportation of excavated earth, there shall be joint measurement of each truck/dumper with challans duly signed by the representative of the City Engineer and the contractor, both at the place of loading as well as unloading. This will serve as cross checking of work done. Mode of measurements will be as described above.

Compaction of bank work, W.B.M. shall be done by use of vibratory roller of approved capacity. Compaction of B.M./A.C. shall be done by combinations of vibratory and static rollers as per specifications of M.O.R.T.H. and direction of Engineer-in-charge. All the items shall be rolled to the required camber super elevation, density, longitudinal profile etc. and surface finish shall be within limits prescribed in M.O.R.T.H specifications. For rolling as per requirement of speed of work and quantity to be rolled number of rollers will have to be arranged by contractor. He should note that compaction to the required standards will be given top most priority. Rolling of each layer will be certified by supervisors of contractor & representative of TMC and certificate will be recorded in M.B. with date, Roller Number etc. Concrete of all grades shall be produced in Ready mix plant & transported to site through transit mixer within the time prescribed in IS Code. Vibration should be as per the provisions of the IS Code.

The contractor shall carry out all building work as per given design, drawing and specification all as per I.S 456.

10.0 Submission of Bills by Contractor :

The contractor shall submit bills for measured quantities duly supported with joint measurements along with copies of records of test results for frequency as per specifications, accounts of bitumen purchase, use of delivery challans of mix from plant to site etc. The Executive Engineer shall check the bills, and measurements submitted by the contractor and submit the bills after joint measurements duly signed by contractor.

11.0 All the bench marks/chainage marks shall be painted and preserved till two years after completion of work by the contractor at his cost.

12.0 Asphalt challans from refinery be produced by contractor giving vehicle number for asphalt used in this work. Please note that 30/40 & 60/70 grade asphalt shall only be

used. The Corporation will test grade of asphalt of any load at the cost of contractor and if it is found that 30/40 & 60/70 grade is not used as specified, the whole work done will stand rejected. Work will not be accepted at reduced rates if the grade of asphalt differs. Bitumen star rate as per schedule rate.

13.0 Centering to be used for the gutter walling and slabs shall be of steel plate or of new marine ply only. No wooden shuttering will be allowed for the concrete of gutter walling, and slab work R.C.C. slab on gutter and gutter walling shall be done with mechanical mixer and vibrator with proper curing arrangements. All the concrete shall be foam finished and no plastering shall be allowed to be done. The slab concrete shall be as per approved mix design only. The reinforcement bars shall be of tested quality. Proper cover shall be provided. The top and bottom surface shall be foamed finished. Only river sand will be allowed to be used having silt content less than 4%. Honey combed surface will be rejected. Kerb stone, centre line divider stones, water tables shall be manufactured in factory with required specifications of concrete on a vibrating platform. Curing shall be by dipping in water tank for 10 days period and no other curing method shall be allowed. The T.M.C. Engineer shall have right to check the quality of production in the factory/plant. All these items shall be plate vibrated and true in line level and weight. The surface shall have foam finish. The joinery of these stones and water tables shall be of good quality and shall not be more than 10 mm. The grill to be provided for central line divider shall be of required size given in drawing. The diameter and gauge shall be as specified of best quality steel. All the material to be used in the grill work shall be approved first by the Engineer Incharge. The sample grill shall be first prepared and got approved in writing. The samples shall be kept in field laboratory till completion.

14.0 Approval to Material in Writing and Preservation of Samples :

For all the items first samples must be got approved from the Engineer Incharge. Approved samples shall be preserved in sealed plastic containers at the site office in cup-board. No work shall be done unless approval in writing is given by the Engineer for quality of material to be used. The samples shall be available in the office for shahabad stones flooring, cheque red tiles, curb stones, beams, central line divider stones, water tables, central line grill, PVC pipes to be used for cabling and all such items like metal, sand metal for WSEL/WBM/BM/AC etc. **Centering before bringing to site shall be got approved in writing from Engineer Incharge.** The first concreting shall be done in the presence of Dy. Engineer only

and it is to be shown to Engineer Incharge after removal of shuttering. After he approves the quality of finish in writing. Then further concreting shall be done. Similarly for asphalt work, WSEL work WBM work, sample stretches shall be prepared first and got approved from Engineer Incharge its quality and quantity in writing before proceeding with further work. No sub-standard work will be accepted and it will stand rejected if it does not meet specifications of MOST and red book. No layer of earth work, WSEL, W.B.M., B.M., shall be laid unless earlier layer compaction is approved in writing the work order book levels jointly recorded on the spot and the site inspection instructions in writing is given by the City Engineer's authorised representative. All the approvals, compaction checking, approval of stretches done. Approval of form finish, surface of gutter walling and slab, various components like kerb stone, beams, tiles, centre line stones, grill, water table, manhole covers shall be recorded in work order book and slips be pasted to samples duly signed by Engineer in charge and representative of TMC and presented till final bill is recorded.

15.0 Posting of Qualified/Experienced Engineers on Site :

The contractor shall post sufficient number of experienced Engineers on site. Engineers to be appointed on site shall be with approval of Engineer Incharge of the work from T.M.C. The contractor shall appoint at least two Engineers (Out of which at least one shall be a graduate. Civil Engineer of minimum 10 years experience) and sufficient qualified supervisors for day to day quality and quantity control, checking at all stages, checking camber, Ghani register etc.

16.0 Safety of Traffic during execution :

During the construction work proper diversion shall be maintained. Proper indicator boards shall be provided for safety of vehicular and pedestrian traffic and labour, staff working on site. Proper insurance of staff labour be drawn as indicated in contract. Safety during construction shall be given top priority and to the entire satisfaction of Engineer incharge.

Tenderer should note that,during the execution of works,debrises etc.dumped on the public streets / footpaths/places wiil have to be removed immediately as per direction of Engineer in charge ,failing which the same will be got removed at their risk and cost.

17.0 Approval for Cement/Steel :-

The steel and cement shall be of approved make as per instructions of Engineer in charge in writing.

18.0 Disposal & Transportation of Excavated Material : -

Disposal & transportation of excavated material shall be done by the contractor at his own cost as directed by Engineer-In-Charge. No extra payment will be made for loading, unloading, transportation, labour and disposal of excavated material within the lead of 50 Mtrs. If lead works out to be more than 50Mtrs in that case rates will be paid as specified in bill of quantities. Proper Account, records will have to be maintained., All the charges for the royalty if payable to collector for excavated material, which will be transported as directed by Engineer-In-Charge shall be borne by the contractor , necessary proof of receipt of having royalty paid shall be submitted along with RA bills . Necessary permission to the transportation from concerned department shall be obtained by contractor himself. TMC will extend necessary possible help in this regard. The rate quoted shall be deemed to be included above aspect.

19.0 Road closing and traffic diversion-

The contractors will have to obtain permission from the traffic police department well in advance either for closing down the road or for diversion of traffic for execution of the work. The work may be required to be executed in phases as per traffic police permission . The contractors should therefore take this factor into account while quoting. It will be the contractors responsibility to take permission from department concern's. TMC will help in issuing letter, give NOC so that authorities could give permission. In case of any delay taking place on account of such permission , TMC will not be responsible. No claim/escalation, extension of time shall be entertained on account of this. Half width of the road can be taken for construction

20.0 T.M.C. will not supply cement to contractors. They shall have to purchase cement of approved make from open market manufactured by reputed companies whose strength of cement shall conform to I.S. 8112.1989. Cement shall have to be got tested at any approved laboratory by TMC of approved make by City Engineer at Contractor's cost before its use.

Testing : - Laboratory

Contractors must have a laboratory at plant & site at their cost for performing various tests at their cost and the following machines and equipment at least shall be provided at site,

- a) Crushing strength machine (for cube tests)
- b) Aggregate testing machine
- c) Set of appropriate sieves for finding fineness modulus and for aggregate grading.
- d) Laboratory weighing balance
- e) Aggregate drying equipment
- f) Equipment for testing of silt content in sand
- g) Aggregate impact value test machines
- h) Flexural beam testing machine.
- i) Contractor must establish this laboratory within 15 days from the date of letter of acceptance of contract. On failure to establish the laboratory in full a penalty of Rs. 300/- per week or part thereof per equipment will be imposed till the contractor procures the necessary equipment in good working condition.

Other machines as required by Engineer of T.M.C.

All the test records shall be meticulously maintained by the Contractor duly signed by Engineer In-charge of the T.M.C. in the site laboratory and made available as and when required.

Six concrete cubes & beam for flexural stress shall be tested at Contractor's cost in the approved lab, for seven and twenty eight days strength as and when directed by Engineer-in-charge as a cross check or as directed in addition to usual testing at site lab. Contractor should possess adequate standard CUBE MOULDS. Specimens will be transported to any approved lab by contractor at their cost.

21.0 The mix design of adequate strength as required and specified by the Engineer shall be done by contractors. The mix design shall be got changed at the cost of contractor if quality of materials and gradations are changed or as may be directed by the City Engineer.

22.0 The mix design should confirm to one of the methods specified in & SP:23:1982 or as per IRC 44:1976 / ES 10262

23.0 The tenders shall submit a list of equipments, machinery possessed by them and required for execution of concrete works. All grades of concrete shall be produces only from Ready mix plant. No mixing of any grade of concrete will be allowed at

site except for very small quantities with prior permission of Engineer-in-charge
Transportation will be through transit mixer only.

- 24.0** The joints (of 1 m x1 m) or as directed by Engineer-in-charge should be cut by mechanical means within 10 hours after the road slab is casted. Spacing of vattas for curing shall have to be done accordingly. In case of delay, contractor is liable for penalty of Rs.1,000/- (In words One thousand Only) per day.
- 25.0** Intial curing shall strictly be done by covering with Hessian cloth & sprinkling with water over the concreted portion as soon as the concrete starts setting. Sprinkling of water be started just after brooming the concrete surface to avoid evaporation of the water from the mix. Care should be taken not to disturb the brushed surface texture. Further curing of the concrete shall be done as directed, for a period of 7 days or as decided by Engineer-In-Charge from the date of casting of the c.c. slab.
A penalty of Rs. 200 /- per sq.m per day will be levied for broken vatas. Penalty of Rs. 1000 /- per day will be levied for improper curing.
- 26.0** The contractor shall have to cast runner beams, man hole bay, water table, water entrance bays, etc. within 5 days from the date of casting slab, failing which a penalty of Rs. 500 /- per day shall be levied on contractor.
- 27.0** The machine cut joints should be filled in immediately with thermo Cole as directed by the Engineer till regular dressing is done. Separate payment will be made for this work.
- 28.0** The machine cut joints and expansion joints must be cleaned first by using Raking tools and then air blown with compressor, so as to remove dust, sand particles & foreign matters form the joints before filing them with hot sealing compound as specified in IS 1834 – 1984, after applying primer conforming to IS 3384 – 1986.
- 29.0** There shall be a **defect liability for 6 Months.**
- 30.0** It will be the responsibility of the contractor to arrange site visit as a third party inspection from **technical experts of I.I.T. Powai or V.J.T.I. or Third Party agency deployed by TMC or Reputed Agency** as directed by City Engineer for inspection of quality work of pavement concrete and sub-base of concrete road during construction time & as and when required by Engineer-in-charge.

It will also be the responsibility of the contractor to arrange a joint inspection before monsoon every year after completion of the work till the expiry of defect liability period and also at the fag end of the defect liability period. Further, if the contractor fails to do so, the observations made by the staff during site inspection shall be considered for the purpose of noting the defects.

31.0 The contractor shall obtain and maintain a telephone at site at their cost till expiry of contract period within 15 days from the date of erection of site office, failing

32.0 After completion of the work the contractor shall submit 3 sets of completion drawings showing therein the details of work executed including the details of SWD and their diameters, water mains laid, location of ducts, manholes and water entrances etc. as directed by the Executive Engineer. Such class shall be mounted on canvas cloth. The completed work shall be handed over to all the concerned department of TMC along with the respective ward offices with necessary plans after completion of the work.

33.0 As regards testing of workability, following procedure shall be followed:-

After making sure that the concrete has been uniformly mixed, take a sample from the first 0.5 cu.m. of concrete discharge, and do a slump (or compacting factor) test on the sample. If the result complies with the specified requirements, then the load should be accepted. If the results are beyond limits, a further sample should be taken from the second 0.5 cu.m. of the discharge, and if this is satisfactory, the load should be accepted, if not, a concrete load shall be rejected, as the same is not as per the specification range. it may vary as per IS 4926/1976.

34.0 No extra payment will be made for the use of admixtures.

35.0 Contractor's Engineer should be qualified and experienced and well conversant with concrete mix design and he should be thoroughly acquainted with the construction of concrete roads.

36.0 Cement is to be taken for mix by weighing on approved weighing machine or similar such machine approved by the Engineer.

37.0 Plate vibrators should be used for compaction of concrete mix in addition to needles and screed vibrators and as such contractors should have equipments of minimum two numbers of each machine such as mixers, plate vibrators, needle vibrators, screed vibrators and one extra numbers of each as stand by.

- 38.0** The work will be allowed in two shifts of 8 hours each i.e. by day and by night also if warranted, with proper adequate lighting arrangement at no extra cost to Corporation.
- 39.0** In case the cube test for 28 days period falls short, core test of the concrete slab at the risk and cost of contractor will be taken of upto 15 cm. dia. cores for requisite depth as per IRC Code No. SP 11 of 1988 immediately and if it fails, no payment will be made till expiry of maintenance period of 2 years, if the concerned panel shows signs of structural distress, the payment will not be made and penalty will be charged as will be decided by the Engineer and repair measures will be carried out by the Contractor to the satisfaction of the City Engineer at his cost.
- 40.0** The base should be adequately watered on the previous day and also two hours before starting concreting work so as to keep the same in moist condition while starting the concreting work.
- 41.0** The apparatus for keeping the dowel bars in straight and perpendicular conditions to the concrete cross sectional surface shall be provided and used to give the alignment as directed by the Engineer, by providing additional bulk head at specified distance. Tie bars should be straightened exactly perpendicular to finished concrete surface by means of adequate device to be approved by the Engineer.
- 42.0** Dowel bars should be painted with bitumen and wrapped with water proof paper and provided with expansion gap with glass wool backing as directed by the Engineer and as shown in drawings.
- 43.0** The concrete road panels must be in proper cross profile as per camber prescribed by the Engineer.
- 44.0** Corrugations if any across the concrete panels must be rectified by hard wire brushes or such other convenient contrivance as directed by Engineer and the depth of corrugations should not be more than 2 mm. depth.
- 45.0** Whenever the needle vibrator is used in vertical or horizontal position the mass must follow with a trowel and punch frequently the portions of concrete from where the needle vibrator is withdrawn so as to ensure that no hollow portion remains in the stiff mass of concrete, plate vibrating shall also follow thereafter
- 46.0** Contractors must go through I.R.C.-43-1972 “ Recommended practice for Tools, Equipments, and appliances for concrete pavement construction” for their guidance in executing concrete road work & I.R.C. – 15 – 2002 also.
- 47.0** The dressing of joints should be maintained free of cost throughout Guarantee period

of the work of Five (5) years.

48.0 Sand shall be of approved quality of fineness modules between 2.4 to 3.5 In case of coarse sand the same will have to be screened. Blending of natural sand and crushed sand may be permitted if it is found to give desired to be used for mixing up with the sand for bringing the admixture within the desired range of fineness modules. such crushed sand shall be of approved quality with fineness passing through 75 micron sieve limited to 15% or less. In case percentage of fineness in crushed sand is found to be more than 15% prescribed under I.S. code 383 of 1970 the same will have to be washed and screened so as to bring it within the range of approved quality crushed sand.

The fine aggregate will be tested and required as by directed by Engineer, till it satisfies required norms as per I.S.I. and as per specifications referred to above.

49.0. The flexural strength of concrete shall be tested as per IRC - 15-2002 and MORTH specification.

50.0 For night shift working, Contractors shall provide adequate flood light arrangement at his own cost.

51.0 Necessary traffic signs and boards including provision of traffic cones etc. for traffic diversion, closure of road, roadwork in progress, etc. as directed should be fixed by the Contractors at hown cost. Failing which a penalty of Rs. 5000 /- per day shall be levied on contractor.

52.0 Day by day record of execution of work and relating technical records, registers, tests and test reports should be maintained by the contractor's engineer and duly get checked and corrected by site incharge of TMC, which is responsibility of the contractor. Failing which, claim for the bill for such works will not be entertained.

53.0 Temperature of concrete while placing has to be maintained by contractor as per IRC-15-2002 for this necessary care of using ice flakes/chilled water, wetted hassien cloth over transit mixture has to be done by contractor at his own expense.

54.0 Ready mix concrete plant must be fully automized and equipped with computerized machineries. Calibration of weighing balances must checked at six month

55.0 Contractor should remove kerb stone, water table, divider, railing and transport it free of cost to the place as suggested by Engineer-in-charge.

56.0 Water used for mixing and curing of concrete shall be clean and free from injurious substance like oil, salt, acid, vegetable matter and other substances harmful to the

concrete. It shall meet the requirement stipulated in IS 456. The water brought for concreting and curing etc. shall be got tested from Municipal Laboratory to verify whether it is suitable for above purposes whenever directed. This testing will be done at contractor's cost.

57. SPECIFICATION FOR SEALING OF JOINTS IN RIGID PAVEMENTS

The Sealing of joints in rigid pavements shall be accomplished by the use of appropriate grade of sealing compound (IS:1834 1961). The sealing compound shall be heated to required temperature before filling into the joint.

(A) Materials -

- i) Bituminous sealing compound conforming to IS : 1834 1961, "Hot applied sealing compound for joints in concrete".
- ii) Bituminous primer of desired fluidity to be applied cold at ambient temperature.

(B) Specification

The sealing compound shall conform to the following Specifications

Characteristics Requirements

- i) Penetration, 1/10th mm (25 def. 15 to 50.
c/100 g gm/5 sec.)
- ii) Softening point (R&B). deg .C. 75 min.
- iii) Pour point, deg.C. 180 max.
- iv) Increase in softening point after 5 max.
heating for 3 hrs.20 deg.C above
pour point, deg.C
- v) Extensibility, min 6 max.
- vi) Resistance to grit penetration 20 max.

(C) Procedure for filling the joints

- (i) The joint shall be cleaned with coir raker and coir brushes. The fine particles shall be blown off by compressed air.
- (ii) Primer shall be applied to the joint in thin film by a brush & allowed to dry up Care shall be taken that all vertical faces are thoroughly coated.
- (iii) As soon as the primer attains touch dry state sealing compound heated to appropriate pour point temperature shall be poured into the joint and allowed to cool down.

- (iv) After the sealing compound is cooled to ambient temperature it shall be cut with a hot spetula to bring it flush with the existing concrete surface. The finished surface shall be dusted with lime or stone powder to prevent pick up by the traffic.

58. SPECIFICATIONS FOR TRAFFIC SIGNS & ROAD MARKINGS

Traffic Signs

Temporary traffic and construction signs are to be provided during construction and maintenance, operations for traffic diversion and pedestrain safety.

Road Marking

1. Road markings shall be of hot applied thermo plastic materials with glass reflectorising beads as per relevant clauses of section 803 of M.O.S.T. specifications.
2. Road marking shall be as per IRC: 35-1997. This marking shall be applied to road centre lines, edge lines, continuity line, stop lines, give –way lines, diagonal/chevron markings, zebra crossing and at parking areas by means of an approved self propelled machine which has satisfactory cut-off valves capable of applying broken lines automatically.
3. Synthetic enamel paints shall be used to display details of structure number, span arrangement etc. on all culverts and bridges with required description as per M.O.S.T. guidelines.

Specifications of Thermo –Plastic Road Marking

1. All markings should be strictly in accordance with code of practice for road marking , paints IRC-35 and as specified by the engineer-in-charge.
2. The thermoplastic materials shall be homogeneous / composed of aggregate, pigment, resins and glass reflectorizing beads and shall conform to B.S. 3262 PART I/ASTMD36.
3. Requirements:-
 - i) Composition- The material shall be free from all skins, dirt and foreign objects.

Sr. No.	Component	White	Yellow
1	Binder	18.0 min	18.0 min
2	Glass beads	20.0 min	20.0 min
3	Titanium Dioxide	10.0 min	

- ii) Properties: - The properties of thermoplastic material, when tested in accordance with A.S.T.M.D. 36/BS-3262 (Part I) shall be as below:
- a) Luminance :-
- White day light- Luminance at 45⁰- 65 % min as per AASHTO M 249
Yellow day light- Luminance at 45⁰- 45 % as per AASHTO M 249.
- b) Drying time-
- When applied at a temperature specified by the manufacturer and to the required thickness, the material shall set to beat traffic is not more than 15 min.
- c) Skid resistance – not less than 45 as per BS-6044.
- d) Cracking resistance at low temperature-
- The material shall show no cracks on application to concrete blocks.
- e) Softening point- 102.5 as per & 9.5 c as per ASTM D 36
- f) Flow resistance – Not more than 25% per AASHTO M249.
- g) Yellowness index (for white thermoplastic paint) Not more than one as per AASHTO M249.
4. Reflectorisation shall be achieved by incorporation of beads. The grading and other properties of the beads shall be as under.
5. The thermoplastic material shall readily get screeded / extruded at temperature specified by the manufacturers for respective method of application to produce a line of specified thickness which shall be continuous and uniform in shape having clear and sharp edges.
6. The subject material upto heating to application temperature shall not exclude fumes which are toxic, obnoxious or injurious to persons or property.
7. Properties of finished road marking shall be as under:
- a. The strip shall not be slippery when wet.
- b. After application and proper drying the strip shall not show appreciable deformation or discolouration under traffic.
- c. The marking shall not deteriorate by contact with sodium chloride or oil drippings from traffic.
- d. The strip or marking shall maintain its original dimensions in position. Cold ductility of the material shall be such as to permit normal movement with the road surface without chopping or cracking.

- e. The colour of yellow marking shall conform to IS Code No. 356 as given in IS 164.
 - f. Durability – The road markings shall be highly durable in all weather and traffic conditions. It shall last for a period of five years. The markings when tested shall show no sign of cracking, flaking, peeling off or disintegration.
8. The marking shall be done by machine.
 9. The thermoplastic material shall be applied hot either by screeding or extrusion machine at a temperature within the range specified by the manufacturer.
 10. The surface shall be thoroughly cleaned of all dust, dirt, grease, oil and all other foreign matter before application of the paint.
 11. The paint shall be applied in intermittent or continuous lines as directed and specified and of uniform thickness of at least 2.5 mm, unless specified otherwise.
 12. Where arrows or letters are to be provided, the paint may be hand applied.
 13. The tenderer shall furnish a copy of certified test reports from the manufacturer of glass beads obtained from a reputed laboratory showing results of all the tests of all the tests specified and shall certify that the material meets all the requirements of specifications.
 14. The thermoplastic material used should be complying to specifications of B.S. 3262 Part –I/ASTMD-36

APPENDIX -1

Table - 1 INDIAN STANDARDS (IS AND IRC) FOR CONCRETE PAVEMENT & UTWT CONSTRUCTION AND QUALITY CONTROL.

MATERIALS

	Specification	Method of Test	Sampling
Cement OPC	IS : 8112 (Gr.43) IS : 12269 (Gr.53)	IS : 4031(Pt.1 to 14) IS : 4032	IS : 4879

APPENDIX -II
Thane Municipal Corporation, Thane

Sub: Chart showing frequency of test results to be carried out

Sr. No	Material/ Items	Name of Test	Frequency of test
1	Sand	Seive analysis	1 test/ day
		F.M.	1 test/ day
		Silt Content	1 test/ day
		Moisture Content	2 test/ day
		Specific Gravity	1 test for each source & subsequently on monthly basis
2	Metal 1	Grading	1 test/ day
		Impact Value	1 test for each source & subsequently on monthly basis
		Abrasion Value	1 test for each source & subsequently on monthly basis
		Water Absorption	1 test/ day
		Soundness	1 test for each source & subsequently on monthly basis
		Alkali Aggregate Reactivity	1 test for each source & subsequently on monthly basis
		Flakiness Index	1 test for each source & subsequently on monthly basis
3	Metal 2	Grading	1 test/ day
		Impact Value	1 test for each source & subsequently on monthly basis
		Abrasion Value	1 test for each source & subsequently on monthly basis
		Water Absorption	1 test/ day
		Soundness	1 test for each source & subsequently on monthly basis
		Alkali Aggregate Reactivity	1 test for each source & subsequently on monthly basis
		Flakiness Index	1 test for each source & subsequently on monthly basis
4	Cement	All tests	1 test / source. Besides the contractor will submit daily test data on cement released by manufacturer
5	Water	Chemical tests	1 test /source and additional if required by Engineer in charge.

6	Microsilica	All tests	1 test /source and additional if required by Engineer in charge.
7	Concrete cubes	Compressive tests	As per PWD norms.
8	Concrete beams	Flexural strength	As per PWD norms.

Thane Municipal Corporation, Thane

Sub: Chart showing frequency of test results to be carried out at site.

Sr. No.	Material/ Items	Name of Test	Frequency of test
1	WBM	Grading	1 test / 100 Cu.M.
		Impact value	1 test / 200 Cu.M.
		Abrasion value	1 test / 200 Cu.M.
		Flakiness Index	1 test / 200 Cu.M.
		Elongation Index	1 test / 200 Cu.M.
		Water Absorbtion	1 test / 200 Cu.M.
2	Wedge Shear elemental layer	CBR- k value	1 test / lane/Km
3	Concrete	Slump test	1 test /load at both plant and site .
	M 150	Cube test	6 Cubes / 50 cum or less
	M 200	Cube test	6 Cubes / 50 cum or less
	M 600	Cube test	6 Cubes / 50 cum or less
		Beam Test	3 Beams / 50 cum or less
4	Kerb Beam	Cube Tests	50 m3
5	Water Table	Cube Tests	50 m3
6	Divider Cast-in-situ	Cube Tests	50 m3
	Precast	Cube Tests	Per batch
7	Bituminous Macadam	Extraction Test	2 tests / 50 M.T.
		Gradation Test	2 tests /50 M.T.
		Softening Point Test	2 tests / M.T.
8	Asphalt Concrete	Extraction Test	2 tests / 50 M.T.
		Gradation Test	2 tests /50 M.T.
		Softening Point Test	2 tests / M.T.
10	Structural Steel	Point load test Tensile strength	Per 25.0 M.T.

Chapter – V

General Description of work

CHAPTER - V
DESCRIPTION OF WORKS

1. The scope of work covered under the present tender is to Repair & Maintenance of roads.

2. **LOCATION ETC.**

The work is situated within Thane Municipal Corporation Limit. The work to be carried out consist generally of the following main components. It should be borne in mind that the details given in paras below are broad details to get some idea about the type of workinvolved in the work and general site conditions. For more details regarding levels,grades, cross-sections, specifications, mode of construction, quantum of work etc., please refer various cross sections attached to the tender documents, itemwise specifications, Schedule-B and other documents in the contract. The contractors are deemed to have inspected and studied, the site condition regarding the work already done, fresh work to be done,and other structures, and other site and traffic condition etc. before quoting his rate for the work. In case of any variations in respect of technical details, the details given in Schedule - B, itemwise specifications and other specifications and conditions given in the contract shall govern. In respect of details given in regarding site condition, the department does not claim that these details are fully correct and exhaustive.The Contractor should verify the site conditions and be thoroughly conversant with all site conditions/details etc. before quoting and no claims on any account due to variations in the informations in the given site conditions etc. will be accepted by the department. The contractors should study and assess these conditions fully before quoting the rates.

3. **TYPES OF WORK :**

3.1 **GRANULAR SUB-BASE (WEDGE SHEAR ELEMENTAL LAYER) :**

To be provided as per specification and as per the final crust design as directed by Engineer in charge.

3.2 **Metal for Wedge Shear Elemental Layer (W.S.E.L.) :**

It shall be of basaltic origin, hard and durable free from soft, weathered or decomposed parts, clay, organic or other deleterious matter. Rock which is fractured, porous or otherwise physically weak will not be permitted for use.

The broken rubble stones shall be generally of the same specification as per soling stones provided in the size 15 to 23 cm size laid flat. Above the soling stones to

ensure the purpose of wedge shear effect to realise, quarry run stones material shall be wedged in thereafter aggregates of IRC grade-3 size as per Table-2 shall be provided for a loose thickness of 75mm so as to fill up the voids and ensure rolling of the layer with vibratory roller.

3.3 WATER BOUND MACADAM :

To be provided as per specification and as per the final crust design as directed by Engineer in charge.

The aggregates for the water bound macadam shall be crushed or broken stone which shall be hard, durable and free from excess of flat, elongated soft and disintegrated particles dirt and other objectionable matter. The aggregates shall conform to the physical requirements set forth in table –1 and to the sizes and grading indicated in table-2, conforming to MOST specification.

Table-1
Physical requirements of coarse Aggregates for Water Bound Macadam

Test	Test Method	Requirement
a) Los Angles Abrasion Value (*) OR Aggregate Impact Value	IS : 2386 (Part – IV)	40% Max
	IS : 2386 (Part – IV) OR IS : 5640	30% Max
b) Flakiness Index (**)	IS : 2386 (Part – I)	15% Max

* Aggregates may satisfy requirements of either of the two tests.

** The requirements of flakiness index shall be enforced only in case of crushed broken stone.

Table-2
Grading requirements of coarse aggregates for water bound macadam (As per specifications for roads & bridge works Ministry of Transport)

IRC Grading No.	Size Range	Sieve Designation	Percent by weight Passing the sieve
1	90 mm 45 mm	90mm 63mm 45mm 22.4mm	100 25-60 0-15 0-5
3	53 mm 22.4 mm	53 mm 45 mm 22.4 mm 11.2 mm	100 65-90 0-10 0-5

3.4 Screening Materials :

Screening materials to fill voids in coarse aggregates shall consist of same material as of coarse aggregate. Crushable type such as murum is not permitted to be used in the pavement. Grading for screening materials shall be as per Table-3.

Table-3
Grading for Screening

Grading Classification	Size of Screenings	Sieve Designation	Percent by weight Passing the sieve
A	13.2	13.2 mm 11.2 mm 5.6 mm 180 micron	100 95-100 15-35 0-10
B	11.2	11.2 mm 5.6 mm 180 micron	100 90-100 15-35

The consolidated details of quantity of coarse aggregates and screenings required for various grades of WBM are given in Table-4. The frequency of various tests to be conducted are given in Table-5.

Table-4
Approximate quantities of coarse aggregates and screenings required for water bound macadam sub base / base coarse for 10 sq.m.

Classification	Size Range	Compacted Thickness	Loose Quantity	Stone grading classification	Screenings for WBM/Sub base/ base coarse (Loose Qty.)
Grading-1	90 mm 45 mm	100 mm	1.21 to 1.43 cum	Type-A 13.2 mm	0.27 to 0.30 cum
Grading-3	53 mm 22.4 mm	100 mm	1.21 to 1.43 cum	Type-B 11.2 mm	0.27 to 0.30 cum

Table-5
Tests for W.B.M.

Sr. No.	Test	Test Method	Minimum desirable frequency
1	Los Angeles Abrasion value / Aggregate Impact Value	IS : 2386 (Part – IV)-1983	1 test per 200 cum
2	Grading of Aggregates & screenings	IS : 2386 (Part – I)-1963	1 test per 100 cum
3	Flakiness Index of Aggregates	IS : 2386 (Part – I)-1983	1 test per 200 cum
4	Control of grade , camber,		regularly

	thickness and surface finish		
--	------------------------------	--	--

3.5 Dry Lean Concrete course :

To be provided as per specification and as per the final crust design as directed by Engineer in charge.

3.6 WEARING SURFACE FOR MAIN CARRIAGE WAY :

These shall consist of B.B.M. , B.M., A.C., Paver Blocks of required thickness and specifications.

4. SITE CONDITIONS :

The contractors are deemed to have studied the site conditions including the constraints regarding transport. This / These is / are heavy traffic roads.They should also be familiar with availability of suitable materials, constrains on their storage, availability of labour, weather and climatic conditions, and are deemed to have estimated their rates accordingly.The information here in above and provided elsewhere is given in good faith by the employer but the contractor shall satisfy himself regarding all aspects of site conditions and no claim shall be entertained on the plea that the information supplied by the Engineer erroneus or insufficient.

CONDITIONS OF CONTRACT

CLAUSE 1

The person/persons whose tenders may accepted (hereinafter called the Contractor, which expression shall unless excluded by or repugnant to the context include his heirs, executor, administrators and assigns) shall (A) within 10 days (which may be extended by the City Engineer concerned upto 15 days' if the City Engineer thinks fit to do so) of the receipt by him of the notification of acceptance of his tender deposit with the City Engineer in cash or approved securities endorsed to the Commissioner of sum sufficient which will make up the full security deposit specified in the tender and (i) above and (B) Permit TMC, Thane at the time of making any payment to him for work done under the contract to deduct such as will amount to Five (5%) percent. Of all money so payable such deductions to be held by TMC, Thane by way of security deposit until the full amount of the security deposit is made up. All compensation or other money payable, by the Contractor to TMC, Thane under the terms of his contract may be deducted from or paid by the sale of sufficient part of his security deposit or from the interest arising therefrom or from any sums which may be due or may become due by TMC, Thane to the contractor under any other contract or transaction of any nature on any account whatsoever and in the event of his security deposit being reduced by reason of any such deduction or sale as aforesaid the contractor shall, within ten days thereafter, make good in cash or approved securities endorsed any sum or sums which may have been deducted from or raised by sale of his security deposit or any part thereof. The security deposit referred to when paid in cash may, at the cost of the depositor, be converted into interest bearing securities.

If the amount of securities deposit to be paid in lump-sum within the period specified at (A) above is not paid the tender/contract already accepted shall be considered as cancelled and legal steps taken against the contractor for recovery of the amounts. The amount of security deposit retained by the TMC, Thane shall be released after the expiry of period upto which the contractor has agreed to maintain the work in

good order is over. In the event of the contractor failing or neglecting to complete rectification work within the period upto which the contractor has agreed to maintain the work in good order, then subject to provisions of clauses 17 and 20 hereof the amount of security deposit returned, by TMC, Thane shall be adjusted towards excess cost incurred by the TMC, Thane on rectification work.

CLAUSE 2

The time allowed for carrying out the work as entered in the tender shall be strictly observed by the contractor and shall be reckoned from the date on which the order to commence work is given to the contractor.

The work shall through out the stipulated period of the contract be proceeded with,with all due diligence (time being deemed to be the essence of the contract on the part of the contractor) and the contractor shall pay as compensation an amount equal to one percent or such smaller amount as the City Engineer (whose decision in writing shall be final) may be decide, of the amount of the estimated cost of the whole work as shown by the tenderer for every day that the work remains uncompleted,or unfinished after the proper dates.And further to ensure good progress during execution of work, the contractor shall be bound ,in all cases in which the time allowed for any work exceeds on month to complete.

The contractor should complete the work as per phase period given below.

25% of work in **1/4** of the time

50% of work in **1/2** of the time

75% of work in **3/4** of the time

Full work i.e. 100 % work will have to be completed **in (12) Twelve Months (including monsoon)**

In the event of the contractor failing to comply with this condition he shall be liable to pay as compensation an amount equal to one percent or such smaller amount as the City Engineer (whose decision in writing shall be final) may decide of the said estimated cost of the whole work per day that the due quantity of the work remains

incomplete, provided always that the total amount of the compensation to be paid under provisions of this clause shall not exceed **10%** of the estimated cost of the work shown in the tender. The City Engineer shall be final authority in this respect, irrespective of the fact that the tender is accepted by the Hon Municipal Commissioner/ Hon Standing Committee.

CLAUSE 3

In the case in which under any laws of this contract the contractor shall have rendered himself liable to pay compensation amounting to the whole of his security deposit (whether paid in one sum or deducted by installments) or in the case of abandonment of the work owing to serious illness or death of the contractor or any other cause, the City Engineer on behalf of the TMC, Thane shall have power to adopt any of the following courses as he may deem best suited to the interest of TMC, Thane.

- a) To rescind the contract for which rescission notice in writing to the contractor under the signature of the City Engineer shall be conclusive evidence and in that case the security deposit of the contractor shall stand forfeited and be absolutely at the disposal of the TMC, Thane.
- b. To carry out the work or any part of the work departmentally, debiting the contractor with the cost of the work expenditure incurred on tools and plants and charges on additional supervisory staff including the cost of work charged establishment employed for getting the unexecuted part of the work completed and crediting him with the value of the work done departmentally in all respect in the same manner and at the rates as if it has been carried out by the contractor under the terms of his contract. The certificate of the City Engineer as to the cost and other allied expense as incurred and as to the value of the work so done departmentally shall be final and conclusive against the contractor.
- c) Order that the work of the contractor be measured up and to take such part as thereof as shall be unexecuted out of his hands, and to give it to another contractor to complete, in which case all expenses incurred on advertisement for fixing a new contracting agency, additional

supervisory staff including the cost of work charged establishment and cost of the work executed by the new contract agency will be debited to the contractor and the value of the work done or executed through the new contractor shall be credited to the contractor in all respects and in the same manner and at the same rates as if it had been carried out by the contractor under the terms of his contract. The certificate of the City Engineer as to all cost of the work and other expenses incurred as aforesaid for, or in getting the unexecuted work done by the new contractor and as to the value of the work so done shall be final and conclusive against the contractor.

In case the contract shall be rescinded under clause (a) above the contractor shall not be entitled to recover or be paid any sum for any work therefore actually performed by him under this contract unless and until the City Engineer shall have certified in writing performance of such work and the amount payable to him in respect thereof and he shall only be entitled to be paid the amount so certified. In the event of either of the course referred to in clause (b) or (c) being adopted and the cost of work executed departmentally or through a new contractor and other allied expenses exceeding the value of such work credited to the contractors, the amount of excess values shall be deducted from any money due to the contractor by the TMC, Thane under the contract or otherwise howsoever or from his security deposit or the sale proceeds thereof, provided however that the contractor shall have no claim against TMC, Thane even if the certified value of the work done departmentally or through a new contractor exceeds the certified cost of such work and allied expenses provided always that whichever of the three Courses mentioned in clauses (a), (b) or (c) is adopted by the City Engineer, the contractor shall have ii,) claim to compensation for any loss Sustained by him by reason of his having purchased, or procured any material or entered into engagements or made any advances on account or with a view of the execution of the work or the performance of the contract. The certificates of the City Engineer as to all cost of the work and other expenses incurred as aforesaid for or in

getting the unexecuted work done by the new contractor and as to the value of the work so done and shall be final and conclusive against the contractor.

CLAUSE 4 If the progress of any particular portion of the work is unsatisfactory the City Engineer shall notwithstanding that the general progress of the work is satisfactory in accordance with clause (2) be entitled to take action under clause 3 (b) after giving the contractor 10 days notice in writing and the contractor will have no claim for compensation, for any loss sustained by him owing to such action.

CLAUSE 5 In any case in which any of the power conferred upon the City Engineer by clauses 3 and 4 hereof shall have become exercisable and the same shall not have been exercised, non-exercise thereof shall not constitute a waiver of any of conditions thereof and such powers shall notwithstanding be exercised in the event of any future case of default by the contractor, for which, by any clause or clauses hereof he is declared liable to pay compensation amounting to the whole of his security deposit and the liability of the contractor for past and future compensation shall remain unaffected.

In the event of the City Engineer taking the action under sub clauses (a) or (c) of clause 3 he may if he so desires, take possession of all or any tools, plants materials and stores in or upon the works or the site thereof or belonging to the contractor or procured by him and intended to be used for the execution of the work or any part thereof, paying or allowing for the same in account at the contract rates, or in the case of contract rates not being applicable at current market rates to be certified by the City Engineer whose certificate thereof shall be final. In the alternative the City Engineer may after giving notice in writing to the contractor alternative the City Engineer may after giving notice in writing to the contractor or his clerk of the work, foreman or other authorised agent, require him to remove such tools, plants, materials, or stores from the premises within a time to be specified in such notice, and in the event of the contractor failing to comply with any such requirement the City Engineer may remove them at the contractor's expense or sell them by auction or private sale at risk and account of the contractor in all respects and the certificate of the City Engineer, as to the expense of any such removal,

and the amount of the proceeds, and expense of any such sale shall be final and conclusive against the contractor.

CLAUSE 6 If the contractor shall desire an extension of time for completion of the work on the ground of his having been unavoidably hindered in its execution or on any other ground he shall apply in writing to the City Engineer before the expiration of the period stipulated in the tender or before the expiration of 30 days from the date on which he was hindered as aforesaid, or on which the cause for asking for the extension occurred, whichever is earlier and the City Engineer if in his opinion there was reasonable grounds for granting an extension grant such extension if he thinks necessary or proper. The decision of the City Engineer in this matter shall be final.

CLAUSE 7 CERTIFICATION OF SUBSTANTIAL COMPLETION OF WORKS:

On completion and taking over of works or a part of work exclusively stipulated in the contract documents, all in accordance with the requirements of the contract agreement and further Subject to the condition that the completed works or items of work, as the case may be (in case of phase completion), the City Engineer will issue a substantial completion certificate for whole or part of the works as the case may be on receiving written request from the contractor. The substantial completion is defined as stage of the work when it has been completed and made ready for functional use, although some minor points or insignificant items of work still remain to be completed, however, these minor points and insignificant items should not have any bearing on the functionality of the item. Provided always that the said substantial completion certificate being issued, prior to completion of whole of the works shall not be deemed to preempt requirement of reinstatement of any ground or surface, as may be necessary under contract provisions.

COMPLETION CERTIFICATE :

The completion certificate shall be issued by the City Engineer after completion of all minor works mentioned in substantial completion of work.

CLAUSE 8 No payment shall be made for any work estimated to cost less than Rs. 10000/-, till after the whole of the said work shall have been completed and certificate of completion given. But in the case of the works estimated to cost more than Rs. 10000/- the contractor shall on submission of bill be entitled to receive payment proportionate to the part of the work then

approved and passed by the City Engineer, whose certificate of such approval and passing, of the sum of payable shall be final and conclusive against the contractor. All such intermediate payments shall be regarded as payments by way of advance against the final payments only and not as payments for work actually done and completed, and shall not preclude the City Engineer from requiring any bad, unsound, imperfect or unskillful work to be removed and taken away and reconstructed or re-erected, nor shall any such payment be considered as an admission of the due performance of the contractor or any part thereof in any respect or the occurring of any claim, nor shall it conclude, determine, or affect in any other way the powers of the City Engineer as to the final settlement and adjustment of the account or otherwise, or in any other way vary or affect the contract. The final bill shall be submitted by the contractor within one month of the date fixed for the completion of the work, otherwise City Engineer's certificate of the measurements and of the total amounts payable for the work shall be final and binding on all parties.

CLAUSE 9 The rates for several items on work estimated to cost more than Rs. 10000/- agreed to within, shall be valid only when the item concerned is accepted as having been completed fully in accordance with the sanctioned specifications. In case where the items of work are not accepted as so completed the City Engineer may make payment on account of items at such reduced rates as he may consider reasonable in the preparation of final or on accounts bill.

CLAUSE 10 A bill shall be submitted by the contractor as explained earlier i.e. cost not less than 1/5th cost of tendered amount or as decided by Engineer-in-Charge depending on site situation, on or before the date fixed by the City Engineer for all work executed previously and the City Engineer shall take or cause to be taken requisite measurement for the purpose of having the same verified, and the claim so far as it is admissible, shall be adjusted, within 10 days from the presentation of the bill. If the contractor does not submit the bill within the time fixed as aforesaid, the City Engineer may depute a subordinate to measure the said work in the presence of the contractor or his duly authorised agent whose counter signature to the measurement list shall be sufficient warrant, and the City Engineer may prepare a bill from such list which shall be binding on the contractor in all respects.

CLAUSE 11 The contractor shall submit all bills on the printed forms to be had on application at the office of the City Engineer. The charges to be made in tile bills shall always be entered at the rates specified in the tender or in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender, at the rates hereinafter provided for such work.

CLAUSE 12 If the specifications or estimate of the work provided for the use of any special description of materials to be supplied from the TMC, Thane stores or if it is required that the contractor shall use certain stores to be provided by the City Engineer (such materials and stores, and the prices to be charged therefore as hereinafter to mention being so far as practicable for the convenience of the contractor but not so as in anyway to control the meaning and effect of this contract-specified in the schedule or memorandum hereto annexed) the contractor shall be supplied with such materials and stores as he may be required from time to time to be used by him for the purpose of the contract only and the value of the full quantity of materials and stores supplied shall be set off or deducted from any "Sums then due or thereafter to become due to the contractor under the contract, or otherwise, or from the security deposits or the proceeds of the sale thereof. If the deposit is held in approved securities, the ;same or a sufficient portion thereof shall in that case be sold for the purpose. All material supplied to the contractor shall remain the absolute property of TMC, Thane and shall on no account be removed from the site of work, and shall at all times be open to inspection by the City Engineer. Any such materials unused and in perfectly good condition at the time of completion or termination of the contract shall be returned to the TMC Thane store, if the City Engineer so requires by notice in writing given under his hand but the contractor shall not be entitled to return any such material except with such consent of the City Engineer and he shall have no claim for compensation on account of any such material supplied to him as aforesaid but remaining unused by him or for any wastage in or damage to any such materials.

CLAUSE 12(A) All stores of controlled materials such as cement, steel, etc. supplied to the contractor by TMC or procured by the contractor, should be kept by the contractor under lock and key and they will be accessible for inspection by the City Engineer or his authorised agent at all the times.

CLAUSE 13 The contractor shall execute the whole and every part of the work in the most substantial and workman like manner, and both as regards material and in

every other respect in strict accordance with specifications. The contractor shall also confirm exactly, fully and faithfully to the designs, drawings and instructions in writing relating to the work signed by the City Engineer and lodged in his office and to which the contractor shall be entitled to have access for the purpose of inspections at such office, or in the site of the work during office hours. The contractor will be entitled to receive three sets of contract drawings and working drawings as well as one certified copy of the accepted tender along with the work order free of cost.

CLAUSE 14 The City Engineer shall have power to make any alterations in or additions to the original specification drawings, designs and instructions that may appear to be necessary or advisable during the progress of the work and the contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given to him in writing signed by the City Engineer and such alteration shall not invalidate the contract, and any additional work which the contractor may be directed to do in the manner above specified as part of the work shall be carried out by the contractor on the same conditions in all respect on which he agreed to do the main work, and at the same rates as per specified in the tender for the main work as stated earlier in Special Condition of Contract. And if the additional and altered work includes any class of work for which no rate is specified in this contract, then such rates will be taken as per Chapter IX – Clause 38 (6) as extra items.

CLAUSE 15 1) If at anytime after the execution of the contract documents, the City Engineer shall for reasons whatsoever (other than default on the part of the contractor for which the TMC, Thane is entitled to rescind the contract) desires that the work or any part of the work specified in the tender should be suspended for any period of that the whole or part of the work should not be carried out at all, he shall give to the contractor a notice in writing of such desire and upon receipt of such notice the contractor shall forthwith suspend or stop the work wholly or in part as required, after having due regard to the appropriate stage at which the work should be stopped or suspended so as not to cause any damage or injury to the work already done or endanger the safety thereof provided that the decision of the City Engineer as to the stage at which the work any part of it could be or could have been safely

stopped or suspended shall be final and conclusive against the contractor. The contractor shall have no claim to any payment of compensation whatsoever by reason of or in pursuance of any notice as aforesaid on account of any suspension stoppage or curtailment except to the extent specified hereinafter.

- 2) Where the total suspension of work ordered as aforesaid continued for a continuous period exceeding 90 days, the contractor shall be at liberty to withdraw from the contractual obligations under the contract so far as it pertains to the unexecuted part of the work by giving 10 days prior notice in writing to the City Engineer within 30 days of the expiry of the said period of 90 days of such intention requiring the City Engineer to record the final measurement of the work already done and to pay the final bill. Upon giving such a notice the contractor shall be deemed to have been discharged from his obligations to complete the remaining unexecuted work under this contract. On receipt of such notice the City Engineer shall proceed to complete the measurement and make such payments as finally due to the contractor within the period of 90 days from receipt of such notice in respect of the work already done by the contractor, such payment shall not in any manner prejudice the right of the contractor to any further compensation under the remaining provision of this clause.
- 3) Where the City Engineer requires the contractor to suspend the work for the period in excess of 30 days at any time or 60 days in aggregate, the contractor shall be entitled to apply to the City Engineer within 30 days of the resumption of the work after such suspension of payment of compensation to the extent of pecuniary loss suffered by him in respect of working machinery remaining idle on site or on account of his having had to pay the salary or wages of labour engaged by him during the said period of suspension provided always that contractor shall not be entitled to any claim in respect of any such working machinery, salary or wages whatsoever occasioned by unsatisfactory work or any other default on his part. The decision of the City Engineer in this regard shall be final and conclusive against the contractor.
- 4) In the event of :
 - i) Any total stoppage of work on notice from the City Engineer under sub clause (1) in that behalf.

- ii) Withdrawal by the contractor from the contractual obligations to complete the remaining unexecuted work under sub clause (2) on account of continued suspension of work for a period exceeding (90) days.
- iii) Curtailment in the quantity of item or items originally tendered on account of any alterations omissions or substitution as in the specifications, drawings, designs or instructions under clause 14 (i) where such curtailment exceeds 40% in quantity and the value of the quantity curtailed beyond 40% at the rates for items specified if the tender is more than Rs.5,000\-.

It shall be open to the contractor within (90) days from the service of (i) the notice of stoppage of work or (ii) the notice of withdrawal from the contractual obligations under the contract on account of the continued suspension of the work or (iii) notice under clause 14 (i) resulting in such curtailment to produce to the City Engineer satisfactory documentary evidence that he had purchased or agreed to purchase material to use in the contracted work, before receipt by him of the notice of the stoppage, suspension or curtailment and require the TMC, Thane to take over on payment of such material at the rates determined by the City Engineer, provided however such rates shall in no case exceeds the rates at which the same where acquired by the contractor. The TMC, Thane shall thereafter take over the material so offered provided the quantities offered are not in excess of the requirements of the unexecuted work as specified in the accepted tender and are of quality and specifications approved by the City Engineer.

CLAUSE 15(A)

The contractor shall not be entitled to claim any compensation from the TMC, Thane for the loss suffered by him on account of delay by TMC Thane in the supply of materials entered in schedule “A” where such delay is caused by

- i) Difficulties relating to the supply of railway wagons.
- ii) Force major.
- iii) Act of God.

iv) Act of enemies of the state or any other reasonable cause beyond control of Thane Municipal Corporation.

In case of such delay in the supply of material, the TMC, Thane shall grant such extension of time for the completion of the work as shall appear to the City Engineer to be reasonable in accordance with the circumstances of the case. The decision of the City Engineer as to the extension of time shall be accepted as final by the contractor.

CLAUSE 16 Under no circumstances what so ever shall be contractor be entitled to any compensation from TMC, Thane on any account unless the contractor shall have submitted a claim in writing to the City Engineer within one month of the case of such claim occurring.

CLAUSE 17 If any time before the security deposit or any part thereof is refunded to the contractor it shall appear, to the City Engineer or his subordinate in charge of the work, that any work has been executed with unsound, imperfect or unskillful workmanship or with materials of inferior quality, or that any materials or articles, provided by him for the execution of the work are unsound or the quality inferior to that contracted for, or are otherwise not in accordance with the contract. It shall be lawful for the City Engineer to intimate this fact in writing, to the contractor and then notwithstanding the fact that the works, materials or articles, complained of may have been inadvertently passed, certified and paid for, the contractor shall be bound forthwith to rectify, or remove and reconstruct the work so specified in whole or in part, as the case may require or if so required shall remove the material or articles so specified and provide other proper and suitable materials or articles at his own charge and cost and in the event of his failing to do so within a period to be specified by the City Engineer in written intimation aforesaid the contractor shall be liable to pay compensation at the rate of 1% on the amount of the estimate for, everyday not exceeding 10 days during which the failure so continues and in the case of any such failure City Engineer may rectify or remove and re-execute the work or remove and replace the materials or articles complained of as the case may be at the risk and expenses in all respects, of the contractor. Should the City Engineer, consider that any such inferior work or materials, as described above maybe accepted or made use of it shall be within his discretion to accept the same at such reduced rates as he may fix therefore.

CLAUSE 18 All works under or course of execution or executed in pursuance of the contract shall at all times be open to the inspection and supervision of the City Engineer and his subordinates, and contractor shall at all times during the usual hours and at all other times at which reasonable notice of the intention of the City Engineer or and his subordinate to visit the work shall have been given to the contractor, either himself be present to receive orders and instructions, or have a responsible agent duly accredited in writing present for that purpose. Orders given to the contractor's duly authorised agent shall be considered to have the same force and effect as if they had been given to the contractor himself.

CLAUSE 19 The contractor shall give not less than five days notice in writing to the City Engineer or his subordinate in charge of the work before covering up or otherwise placing beyond the reach of measurement any work in order that the same may be measured and correct dimensions thereof taken before the same is covered up or placed beyond the reach of measurement, any work without the consent in writing of City Engineer or his subordinate in charge of the work and if any work shall be covered up or placed beyond the reach of measurement without such notice having been given or consent obtained, the same shall be uncovered at the contractor's expenses and in default thereof no payment or allowance shall be made for such work or for the materials with which the same was executed.

CLAUSE 20 If during the period of Six (6) Months from the date of completion as certified by the Engineer in pursuant of clause 7 of the contract and after commissioning the work whichever is earlier in the opinion of the City Engineer, the said work is defective in any manner whatsoever the contractor shall forthwith on receipt of notice in that behalf from the City Engineer duly commence execution and completely carry out at his cost every respect all the work that may be necessary for rectifying and setting right the defects specified therein including dismantling and reconstruction of unsafe portions strictly in accordance with. and in the manner prescribed and under the supervision of the City Engineer. In the event of the contractor failing or neglecting to commence execution of the said rectification work within the period prescribed therefor in the said notice and/or to complete the same as aforesaid as required by the said notice, the City Engineer get the same executed and carried out departmentally or by any other agency at the risk on account and at the cost of the contractor. The contractor shall forthwith on demand pay to TMC, the amount of such

cost,-charges and expenses sustained or incurred by the TMC, Thane of which the certificates of the City Engineer shall be final and binding on the contractor. Such costs, charges and expenses shall be deemed to be arrears of land and revenue and in the event of contractor failing or neglecting to pay the same on demand as aforesaid without prejudice to any other right and remedies of the TMC, Thane the same maybe recovered from the Contractor as the arrears of land revenue. The TMC, Thane shall also be entitled to deduct the same from any account which may then be payable or which may thereafter become payable by the TMC, Thane to the contractor either in respect of the said work or any other whatsoever or from the amount of security deposit retained by TMC, Thane.

CLAUSE 21 The contractor shall supply at his own cost all material (except such special materials if any as may be required in accordance with the contract, by supplied from the TMC Stores) plant, tools, appliances, implements, ladders, cordage, tackle, scaffolding and any temporary work required for the proper execution of the work, whether in the original, altered or substituted form, and whether included in the specification, or other documents forming part of the contract or referred to in these conditions or not and which may be necessary for the purpose of satisfying or complying with the requirements of the City Engineer as to any matter on which under these conditions he is entitled to be satisfied or which he is entitled to require together with carriage therefor, to and from the work. The contractor shall also supply without charge, the requisite number of persons with the means and materials necessary for the purpose of setting out work and counting, weighing and assisting in the measurement or examination at any time and from time to time of the works or the materials failing this the same may be provided by City Engineer at the expense of the contractor under the contract or from his deducted from any money due to the contractor under the contract or from his security deposits or the proceeds of sale thereof, or a sufficient portion thereof. The contractor shall provide all necessary fencing and lights required to protect the public from the accident, and shall also be bound to bear the expense or defense of every suit action or other legal proceedings, that may be brought by any person for injury sustained owing to neglect of the above precautions and to pay and damages and costs which may be awarded in any such suit action or

proceedings to any such person, or which may with the consent of the contractor be paid in compromising any claim by any such person.

List of machinery in contractor's possession and which they propose to use on the works should be Submitted alone, with the tender.

CLAUSE 21(A) The contractor shall provide suitable scaffolds and working platforms, gangway and stairways and shall comply with the following regulations in connection herewith.

- a) Suitable scaffolds shall be provided for workmen for all work that cannot be safely done from a ladder or by other means.
- b) A scaffold cannot be constructed, taken down or substantially altered except
 - i) under the supervision of competent and responsible person and
 - ii) as far as possible by competent workers possessing adequate experience in this kind of work.
- c) All scaffolds and appliances connected therewith and all ladders shall:
 - i) be of sound material
 - ii) be of the adequate strength having regard to the loads and strains to which they will be subjected, and
 - iii) be maintained in proper condition.
- d) Scaffolds shall be so-constructed that no part thereof can be displaced in consequence of normal use.
- e) Scaffolds shall not be overloaded and so far as practicable the load shall be evenly distributed.
- f) Before installing lifting gear on scaffolds special precautions shall be taken to ensure the strength and stability of the scaffolds.
- g) Scaffolds shall be periodically inspected by a competent person.
- h) Before allowing a scaffold to be used by his workmen, the contractor shall, whether the scaffolds has been erected by his workmen or not, take steps to ensure that it complies fully with the regulations herein specified.
- i) Working platforms, gangways and stairways shall be so constructed that no part thereof can sag unduly or unequally.

- ii) to be constructed and maintained having regard to the prevailing conditions as to reduce as far as practicable risks of persons tripping or slipping, and
- iii) be kept free from any unnecessary obstruction.
- j) In the case of working platform and gangways working places and stairways at height exceeding 3 meters (to be specified)
 - i) every working platform and every working gangway shall be closely boarded unless other adequate measures are taken to ensure safety.
 - ii) every working platform and gangway shall have adequate width and
 - iii) every working platform, gangway, working place and stairway shall suitably fenced.
- k) Every opening in the floor of building or in working platform shall except for the time and to the extent required to allow the access of persons or the transport or shifting or materials, be provided with suitable means to prevent the fall of persons or materials.
- l) When persons are employed on roof where there is danger of falling from the height exceeding two meters (to be prescribed) suitable precaution shall be taken to prevent the fall of persons or materials.
- m) Suitable precautions shall be taken to prevent persons being struck by articles which might fall from scaffolds or other working places.
- n) Safe means of access shall be provided to all working platforms and other working places.
- o) The contractors) will have to make payments to the labours as per minimum Wages Act.

CLAUSE 21(B)

The contractor shall comply the following, regulations as regards the Hoisting Appliances to be used by him:

- a) Hoisting machine and tackle, including their attachments, anchorages and support shall :
 - i) be of good mechanical construction, sound material and adequate strength and free from patent defect, and
 - ii) be kept in good repair and in good working order.

- b) Every rope used in hoisting, and lowering materials or as means of suspension shall be of suitable quality ;and adequate strength and free from patent defect.
- c) Hoisting machines and tackle shall be examined and adequately tested after erection on the site and before use and re-examined in position at intervals to be prescribed by the TMC, Thane.
- d) Every chain, ring, hook shackle, swivel and pulley block used in hoisting and lowering materials or as a means of suspension shall be periodically examined.
- e) Every crane driver or hoisting appliance operator shall be properly qualified.
- f) No person who is below the age of 21 years shall be in control of any hoisting machine including any scaffold which, or give signals to any operator.
- g) In the case of every hoisting machine and of every chain, ring, hook shackle, swivel and pulley block used in hoisting or lowering or as a means of suspension the safe working load shall be ascertained by adequate means.
- h) Every hoisting machine and all gears referred to, in the preceding regulation shall be plainly marked with the safe working load.
- i) In case of hoisting machine having available safe working loads, each safe working load and the conditions under which it is applicable shall be clearly indicated.
- j) No part of any hoisting machine or of any gear referred to in relation (g) above shall be loaded beyond the safe working load except for the purpose of testing.
- k) Motors, gearing transmission, electric wiring and other dangerous parts of hoisting appliances shall be provided with efficient safeguards.
- l) Hoisting appliances shall be provided with such means as will reduce to minimum the risk of the accidental decent of the load.
- m) Adequate precautions shall be taken to reduce to minimum the risk of any part of suspended load becoming accidentally displaced.

- CLAUSE 22** The contractor shall not set fire to any standing, jungle, trees, brush wood or grass without a written permit from the City Engineer. When such permit is given, and also in all cases when destroying cut or dug up trees, brush wood, grass, etc. by fire the contractor shall take necessity measures to prevent such fire spreading to or otherwise damaging, surrounding property. The contractor shall make his own arrangement for drinking water for the labour employed for him.
- CLAUSE 23** Compensation for all damages done intentionally or unintentionally by contractor's labours whether in or beyond the limits of TMC, Thane property including any damage caused by the spreading or fire mentioned in clause 22 shall be estimated by City Engineer or such other officer as he may appoint and the estimates of the City Engineer shall be final and the contractor shall be bound to pay the amount of the assessed compensation on demand, failing which, the same will be recovered from the contractor as damages in the manner prescribed in clause I or deducted by the City Engineer from any sums that may be due or become due from TMC, Thane to contractor under this contract or otherwise.
The contractor shall bear the expenses of defending any action or other legal proceedings that may be brought by any persons for injury sustained by him owing to neglect of precautions to prevent the spread of fire and he shall also pay any damages and costs that may be awarded by the court in consequence.
- CLAUSE 24** The employment of female labours on works in the neighborhood of soldier's barracks should be avoided as far as possible.
- CLAUSE 25** No work shall be done on a Sunday without the sanction in writing of the City Engineer.
- CLAUSE 26** The contract shall not be assigned or sublet without the written approval of the City Engineer. And if the contractor shall assign or sublet his contract, or attempt to do so or become insolvent or commence any proceedings to get himself adjudicated and insolvent or make any composition with his creditors or attempt to do so, the City Engineer may, by notice in writing rescind the contract. Also if any bribe, gratuity, gift, loan prerequisite, reward or advantage, pecuniary or otherwise, shall either directly or indirectly be given, promised or offered by the Contractor, or any of his servants or agents to any public officer or person in the employment of the TMC, Thane in any way relating to his office or employment, or if any such

officer or person shall become in any way directly or indirectly interested in contract the City Engineer maybe notice in writing rescind the contract. In the event of contract being rescinded, the security deposit of the contractor shall thereupon stand forfeited and be absolutely at the disposal of TMC, Thane, and same consequences shall ensure as if the contract had been rescinded under clause 3 hereof and in addition the contractor shall not be entitled to recover or be paid for any work therefore actually performed under the contract.

CLAUSE 27 All sums payable by a contractor by way of compensation under any of these conditions shall be considered as reasonable compensation to be applied to use of TMC, Thane without reference to the actual loss or damage sustained, and whether any damage has or has not been sustained.

CLAUSE 28 In the case of tender by partners, any changes in the constitution of firm. shall be notified by the contractor to the City Engineer for his information.

CLAUSE 29 All works to be executed under the contract shall be executed under the direction and subject to the approval in all respects of the City Engineer of the TMC, Thane for the time being, who shall be entitled to direct at what points and in what manner they are to be commenced and from time to time carried on.

CLAUSE 30 1. City Engineer for the time being shall be final conclusive and binding on all parties to the contract upon all questions relating to the meaning of the specifications, designs, drawings and instructions herein before mentioned and as to the quality of workmanship or material used on the work, or as to any other question, claim, right matter, or thing, whatsoever, if any way arising out of, relating to the contract, designs, drawings, specifications estimates, orders or these conditions or otherwise concerning the works, or the execution, or failure to execute the same, whether arising, during the progress of the work, or after the completion or abandonment thereof. This Clause is not an Arbitration Agreement.

2. The contractor may, with-in thirty days of receipt of him by any order passed by the City Engineer of the TMC, Thane as aforesaid, appeal against it to the Municipal Commissioner concerned with the contract, work or project provided that-

a) The accepted value of the contract exceeds Rs. 10 Lakhs
(Rupees Ten Lakhs Only)

- b) Amount of claim is not less than Rs. 1 Lakh (Rupees One Lakh)

CLAUSE 31 The contractor shall obtain from the TMC, Thane all stores and articles of European and American manufacturer which may be required for work, or any part thereof or in making up any articles required thereof in connection therewith unless he has obtained permission in writing from the City Engineer to obtain such store articles elsewhere. The value of such stores and articles as may be supplied to contractor by the City Engineer will be debited to the contractor in his account at the rates shown in the schedule in form A attached to the contract and if they are not entered in the said schedule, they shall be debited to him at the cost price which for the purpose of this contract shall include the cost of carriage and all other expenses whatsoever, which shall have to be incurred in obtaining delivery of the same at the stores aforesaid.

CLAUSE 32 When the estimates on which a tender is made includes lump sum in respect of part of the work, the contractor shall be entitled to payment in respect of items of work involved or the part of the work in question at same rates as are payable under this contract for such items, or of the part of the work in question is not in opinion of the City Engineer capable of measurement, the City Engineer may at his discretion pay the lump sum amount entered in the estimate, and the certificate in writing of the City Engineer shall be final and conclusive against the contractor with regard to any sum or sums payable to him under the provision of this clause.

CLAUSE 33 In the case of any class of work for which there is no such specifications as is mentioned in rule 1. Such work shall be carried out in accordance with the TMC prescribed specifications, and in the event of there being, no TMC prescribed specification then in such case then work shall be carried out in all respects in accordance with the instructions and requirements of the City Engineer.

CLAUSE 34 The expression ‘work’ or ‘works’ where used in these conditions shall unless there be something in the subject or context repugnant to such construction be construed to mean the work or the works contracted, to be executed under or in virtue of the contract, whether temporary or permanent and whether original, altered, substituted or additional.

CLAUSE 35 The percentage referred to in the tender shall be deducted from/ added to the gross amount of the bill before deducting the value of any stock issued.

CLAUSE 36 All quarry fees, royalties, octroi dues and ground rent for stacking materials, if any should be paid by the contractor.

CLAUSE 37 The contractor shall be responsible for and shall pay any compensation to his workmen payable under the Workmen's Compensation Act, 1923 (VIII of 1923) (hereinafter called the said act) for injuries caused to the workmen. If such compensation is payable and paid by TMC, Thane as principal under sub-section (i) of section- 12 of the said act, on behalf of the contractor, this shall be recoverable by the TMC, Thane from the contractor under sub-section (2) of the said section. Such compensation shall be recovered in the manner laid down in clause (1) above.

CLAUSE 37(A) The contractor shall be responsible for and shall pay the expenses of providing medical aid to any workmen who may suffer a bodily injury as a result of an accident. If such expenses are incurred by TMC, Thane the same shall be recoverable from the Contractor forthwith and deducted without prejudice to any other remedy of TMC, Thane from any amount due or that may become due to the contractor.

CLAUSE 37(B) The contractor shall provide all necessary personal safety equipment and first-aid apparatus available for the use of the persons employed on site, and shall maintain the same in condition suitable for immediate use at any time and shall comply with the following regulations in connection therewith.

- a) The worker shall be required to use the equipment so provided by the contractor and the contractor shall take adequate steps to insure proper use of the equipment by those concerned.
- b) When work is carried on in proximity to any place where there is a risk of drowning, all necessary equipment shall be provided and kept ready for use and all necessary steps shall be taken for the prompt rescue of any person in danger.
- c) Adequate provision shall be made for prompt first aid treatment of all injuries likely to be sustained during, the course of the work.

CLAUSE 37(C) The contractor shall duly comply with the provisions of "THE APPRENTICES ACT, 1961" (III of 1961), the rules made thereunder and the thereunders that may be issued from time to time under the said act and the said rules and on the failure or neglect to do so lie shall be subjected to all the liabilities and penalties provided by the said act and the said rules.

CLAUSE 38 1) Quantities in respect of the several items shown in the tender are

approximate, and no revision in the tendered rate shall be permitted in respect of any of the items so long as, subject to any special provision contained in the specifications, prescribing different percentage of permissible variations or the quantity of the item does not exceed 25% of the tender quantity which shall be finalized at the time of pre-bid meeting.

- 2) The contractor shall, if ordered in writing by the City Engineer so to do, also carry out any quantities in excess of the limit mentioned in sub-clause (1) hereof on the same conditions as and in accordance with the specifications in the tender and on at the rates (i) derived from the rates entered in the current schedule of rates and in the absence of such rates, (ii) at the rate prevailing in the market, the said rates being decreased in case percentage quoted by the contractor is below to which the total tendered amount upon the schedule of rates applicable to the year in which the tender were invited. For purpose of operation of this clause, this cost shall be taken to be **Rs 2,98,44,200/- (In Words Rupees Two Crore Ninety Eight Lacs Forty Four Thousand Two Hundred Only)**.
- 3) The quantities shown in the tender are tentative and may be reduced. No compensation or increase in rate will be applicable if quantities are reduced.
- 4) There is no change in the rate for the excess upto 25% of the tendered quantity.
- 5) In case of item for which quantities shown as zero, contractor has to execute the work upto the sum of Rs. 5.00 Lacs (Rs. Five Lacs) as directed by the city engineer at the tendered rate.
- 6) In case of **Extra item** for which rates are not given in tender, current D.S.R. rate or percentage below on current D.S.R. rate quoted by contractor which ever is less will be applicable and if rates are not specified in DSR , rate of such items will be calculated by rate analysis based on market rates without applying tender condition and no escalation will be paid on extra items.

CLAUSE 39 The contractor shall employ any famine, convict or other labour of particular kind or class if ordered in writing to do so by the City Engineer.

CLAUSE 40 No compensation shall be allowed for any delay caused in the starting of the work, on account of any acquisition of land or in the case of the clearance works, on account of any delay in according sanction to estimates.

CLAUSE 41 No compensation shall be allowed for any delay in execution of work on account of water standing in borrow pits or compartments. The rates are inclusive of hard or cracked soil excavation in mud, sub-soil water or water standing in borrow pits and no claim for extra rates shall be entertained, unless otherwise expressly specified

CLAUSE 42 The contractor shall not enter upon or commence any portion of work except with the written authority and instruction of the City Engineer or of his subordinate in-charge of the work. Failing such authority the Contractor shall have no claim to ask for measurement of or payment of work.

- CLAUSE 43**
- i) No contractor shall employ any person who is under the age of 18 years.
 - ii) No contractor shall employ donkeys or other animals with bracing of string or thin rope. The bracing must be at least 3 inches wide and should be of tape (Nawar.)
 - iii) No animal suffering from sores, lameness or emaciation or which is immature shall be employed on the work.
 - iv) The City Engineer or his agent is authorised to remove from the work any person or animal found which does not satisfy these conditions and no responsibility shall be accepted by the TMC, Thane for any delay caused in the completion of work by such removal.
 - v) The contractor shall pay fair and reasonable wages to the workmen employed by him in the contract undertaken by him in the event of any dispute arising between the contractor and his workmen on the ground, that the wages paid are not fair and reasonable the dispute shall be referred without delay to the City Engineer who shall decide the same. The decision of the city Engineer shall be conclusive and binding on the contractor, but such decision shall not the contractor, but such decision shall not in any way affect the condition in the contract regarding the payment to be made by TMC, Thane at the sanctioned tender rates.

- vi) The contractor shall provide drinking water facility to the workers. Similar amenities shall be provided to the workers engaged on large works in urban areas.
- vii) Contractor is to take precaution against accidents which takes place on account of labour using loose garments while working near machinery.
